HISTORICAL

Louis Hennepin, a Franciscan friar, sent by La Salle with Michael Accault, to explore the upper Mississippi river, discovered St. Anthony Falls in 1680. In 1805 Lieutenant Z. M. Pike secured for the United States government from the Dakota Indians a grant of the tract of land near the falls, which included the present Fort Snelling reservation and the greater part of the present area of Minneapolis.

In 1819 a regiment of infantry took possession of the mouth of the St. Peter (now Minnesota) river, and three years later a mill was constructed on the west side of St. Anthony Falls for the purpose of sawing lumber for the use of the garrison. A few years later millstones were added for grinding corn.

The first dwelling erected by white men on the site of Minneapolis was a log house, built by Samuel H. and Gideon E. Pond, two missionaries, who took up their work in 1834 in the Dakota (Sioux) village, which was located on the east shore of Lake Calhoun. Claim shanties of pioneers began to show themselves on the east side of the falls about 1836, but settlement did not begin in earnest until 1847, when a village grew up and the next year was platted as St. Anthony. The Town of Minneapolis, on the west side of the falls, was incorporated in 1856, and soon outgrew, and in 1872, absorbed St. Anthony. The name is partly Dakota and partly Greek. It is a contraction of Minnehaha-apolis—the city of Laughing Water.

In 1855 a great stream of immigration began pouring into Minnesota, and Minneapolis grew rapidly. From a lumbering town it developed into a great milling center, and power furnished by the falls has since turned the wheels of the largest flour mills in the world.

After the Civil War railroads began to creep over Minnesota, and manufacturing industries and wholesale business increased by leaps and bounds.

The City of Minneapolis was incorporated under an act of the Legislature approved February 6, 1867. Dorilus Morrison was the first mayor. The city was divided into four wards, represented by the following aldermen: First ward, William H. Gaslin, Henry Oswald and F. L. Morse; Second ward, Hugh G. Harrison, S. H. Mattison and N. B. Hill; Third ward, George A. Brackett, R. Price and O. B. King; Fourth ward, Isaac Atwater, F. R. E. Cornell and G. Scheitlin. Other officers were: Thomas H. Williams, city clerk; D. R. Barber, assessor; H. H. Brackett, chief of police; S. H. King, city surveyor, and Charles E. Flandreau, city attorney.

ELECTION OF ALDERMEN

AN ACT, to amend Section One, Chapter Two, of the Charter of the City of Minneapolis, enacted by the Legislature of Minnesota, and approved April 3, A. D. 1889.

Section 1. The elective officers of the City of Minneapolis shall be a Mayor, a Treasurer, a Comptroller, members of the City Council and the members of such other boards as this charter shall create and declare to be elective officers of the city.

The City Council shall consist of three (3) Aldermen from each Ward in the city until the first (1st) Monday in January, one thousand eight hundred and ninety-one (1891), and thereafter shall consist of two (2) Aldermen from each Ward, to be elected by the qualified voters in their respective Wards.

The Aldermen shall each hold office for the term of four (4) years from and after the first (1st) Monday in January next following their election, provided that the Aldermen who were elected at the general election held in November, one thousand eight hundred and eight-eight (1888) and qualified under such election, shall continue in office until the expiration of the term for which they were elected.

At the general election to be held in November, one thousand eight hundred and ninety (1890), and at each general election held every two years thereafter, there shall be elected one (1) Alderman from each Ward to serve for the term of four (4) years from the first (1st) Monday in January next following his election.

Chapter 452, Session Laws of Minnesota for 1919—

An act relating to separate primaries and elections in cities of the first class not operating under a home rule charter; enacted by the Legislature of the State of Minnesota, approved April 25, 1919.

Section 1. Minneapolis city election to be held on second Monday in June of odd numbered years. In every city of the first class in this state not organized under Section 36 of Article IV of the constitution of the State of Minnesota, the elective officers thereof shall be chosen biennially on the second Monday in June of each odd numbered year, commencing on the second Monday in June, 1921, and biennially thereafter. The officers so elected shall take office on the first Monday of July next succeeding their election. Nothing in this act shall be construed to shorten the terms of office of any of the officers of any such city as now fixed by law.

Section 2. Primary election. Primary elections shall be held on the second Monday in May, 1921, and biennially thereafter to make nominations for such offices.

Section 3. General election laws to govern. Such primaries and elections shall be held in accordance with the general laws of the State relating to primaries and elections.

Section 4. Extension of present terms of office. Any officers of any such city whose term of office expires on the first Monday in January, 1921, shall continue to hold his said office until the first Monday of July, 1921, and until his successor is elected and qualified. Any officers of any such city whose term of office expires on the first Monday of January, 1923, shall continue to hold his office until the first Monday of July, 1923, and until his successor is elected and qualified, and any officers of any such city whose term of office expires on the first Monday of January, 1925, shall continue to hold his office until the first Monday of July, 1925, and until his successor is elected and qualified. No city election for the election of officers of any such city shall be held on the first Tuesday after the first Monday of November, 1920.

REPORTS OF STANDING COMMITTEES

Alderman Gisslen, Chairman of the Standing Committee on Claims, reported the schedule of the budget of bills and payrolls audited by the City Comptroller as correct, and moved that said budget of bills and payrolls contained in said schedule be and is hereby approved and ordered paid by the City Council, and the City Clerk be and is hereby directed to draw warrants for the various amounts specified in said schedule and in favor of the persons therein named.

Adopted — Yeas, 26; nays, none, as follows: Yeas — Aldermen Ritten, Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Brown, Rosander, Peterson, Bastis, Turner Swanson, Rendell, Sheffield, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—26.

From the Standing Committee on Claims—

Your Committee having under consideration the claim of Stanley A. Fischer, residing at No. 4139 Aldrich avenue north, for damage sustained to his automobile on April 7, 1928, as the result of driving over a defective sewer manhole cover on Camden avenue between 52nd and 53rd avenues north, thereby causing damage and injury to the said automobile of this claimant in the sum of $34.45, report and recommend that the proper City officers be and are hereby authorized and directed to draw a warrant for the sum of $34.45, payable to Stanley A. Fischer as a complete and final settlement for the damage sustained by him, upon the execution of a release to be approved by the City Attorney, said sum to be paid from the Sewers General Account Subdivision of the Permanent Improvement Revolving Fund.

A. R. Gisslen, Geo. Guider, O. J. Turner, E. J. Sweeney, Committee.

Adopted — Yeas, 26; nays, none, as follows: Yeas — Aldermen Ritten, Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Brown, Rosander, Peterson, Bastis, Turner Swanson, Rendell, Sheffield, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—26.

Alderman Gisslen moved that the report from the Committee on Claims, prepared for the Council meeting of June 29th, but not submitted to the Council, be taken from the Committee.

Alderman Hawley called upon the City Attorney for an opinion as to whether a committee report can be read in the Council meeting unless it contains the signatures of a majority of the Committee.

The City Attorney stated that a committee report requires the signatures of three members of the committee before being submitted to the Council; if the matter is explained, orally by some statement to the Council it can be taken from the Committee.

Alderman Gisslen requested the City Attorney to explain the question involved in the report.

The City Attorney made a statement to the Council relative to the judgment entered as a claim against the City of Minneapolis in favor of the plaintiff, in the case of Henry N. Knott, plaintiff, vs. Edward W. Hawley, defendant, and the City of Minneapolis, garnishee, and that the City Treasurer could not pay such judgment without action by the City Council.

Alderman Fruen moved that action on the matter be deferred until the next regular meeting of the City Council, with the understanding that action be taken at that time.

Adopted.

From the Standing Committee on Claims and Aldermen Third Ward—

From the Standing Committee on Ways and Means—

Your Committee to whom was referred communication from the City Comptroller (44904), requesting authority to credit to the Richfield Fund such moneys as may be received in the form of delinquent taxes from the levies made by Richfield, except school taxes, which will, to a small extent, offset the deficit in this Fund, respectfully report and recommend that the proper City officers be authorized to credit the moneys received as delinquent taxes to the Richfield Fund, in accordance with the suggestion of the City Comptroller.

O. J. Turner, Albert G. Bastis, Charles Rosander, Edward W. Hawley, Committee.

Adopted—Yeas, 22; nays, none, as follows: Yeas — Aldermen Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Rosander, Peterson, Turner, Swanson, Rendell, Pearson, Gissen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—22.

From the Standing Committee on Ways and Means—

Your Committee having under consideration the matter of the investigation of the Minneapolis Teachers Retirement Fund, respectfully report and recommend that the services of Chas. H. Preston & Company, accountants, be secured for the purpose of checking the accounts of the Minneapolis Teachers Retirement Fund, to determine whether, taking into consideration the law of the State of Minnesota, the method of crediting the amounts contributed by the City to this Fund, is the correct method, and if not, how much of a difference in dollars and cents it makes to the City each year, such work to be done by Chas. H. Preston & Company, to be paid for by the Teachers Retirement Fund Association, the contract for such work to be drawn by the Board of Trustees of the Teachers Retirement Fund in conference with Chas. H. Preston & Company, the work to be done under the direction of the Committee on Ways and Means of the City Council, acting on the advice of the City Attorney.

O. J. Turner, Albert G. Bastis, E. J. Sweeney, Charles Rosander, Edward W. Hawley, Committee.

Adopted.

From the Standing Committee on Ways and Means—

Your Committee respectfully reports consideration of the communication from Garfield W. Brown, Public Examiner, reporting on progress of work of investigation of pay rolls and pay roll systems of departments operating under the direction of the City Council, reporting work on the ward funds practically completed, and stating that in departments employing timekeepers, or having a more reliable record than those of the wards, instructions had been given to examiners to make test checks, checking out completely all records of a given year in one department, and examination of the time and pay roll checks for the same period, plus one additional year; if after such a check nothing of a suspicious nature was detected, such department was not investigated further, and in case discrepancies were noted detailed examinations would be made; that the approximate cost of the examination to date is $4,800.00, and suggesting that investigation for the full six-year period would involve a tremendous amount of labor and expense, and that unless further instructions were received, the examination would proceed as outlined.

After such consideration your Committee respectfully recommends that the suggestion of the Public Examiner be concurred in by the City Council.

O. J. Turner, Albert G. Bastis, E. J. Sweeney, Charles Rosander, Edward W. Hawley, Committee.

Adopted.

From the Standing Committee on Ways and Means—

Your Committee to whom was submitted by the City Engineer, the matter of the necessity of constructing storm drains on 44th street, from Upton avenue to France avenue, before the construction of paving under Elwell project No. 1623, which has been confirmed by the City Council, and suggesting the transfer of funds to take care of the expense of such storm drains, respectfully report and recommend that the prop-

er City officers be directed to transfer $9,500.00 from the City's Portion of New Paving subdivision of the Permanent Improvement Fund to the Storm Sewer subdivision of the Permanent Improvement Fund, for the purpose of constructing storm drains on West 44th street, in advance of the paving.

O. J. Turner, Albert G. Bastis, E. J. Sweeney, Charles Rosander, Edward W. Hawley, Committee.

Alderman Turner offered a resolution, as per above report, transferring $9,500.00 from the City's Portion of New Paving subdivision of the Permanent Improvement Fund to the Storm Sewer subdivision of the Permanent Improvement Fund, for the purpose of constructing storm drains in West 44th street, in advance of paving. (See Resolution.)

AN ORDINANCE

Granting permission to the Northwestern Terminal Company to construct, maintain and use a tunnel under and across Traffic street, in the city of Minneapolis.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. Permission is hereby granted to the Northwestern Terminal Company to construct, maintain and use a tunnel under and across Traffic street, in the City of Minneapolis, the center line of such tunnel to commence at a point in the north line of said Traffic street distant substantially 14 feet west of the southeast corner of Block 13, in Minneapolis Industrial District, and to run thence southeasterly across said Traffic street to a point in the south line of said Traffic street distant substantially 5 feet east of the northwest corner of lot 3, in block 25, in said Minneapolis Industrial District, the top of said tunnel to be approximately 4 feet below the bottom of the curb, and said tunnel to be substantially 4 feet in diameter and to be constructed of round railroad machine made tile having a loading of 2,000 pounds as made by Massey Concrete Products Co., or of a similar material, all according to a blueprint thereof on file with the City Engineer of said City marked "Drawing No. 512," on condition that said tunnel shall be constructed and all work thereon done under the supervision and to the satisfaction of said Engineer, and on condition that said company shall, within thirty days after the completion of said tunnel, properly replace, repair and restore the roadway, pavements, sidewalks and curbs and gutters, and other portions of said street which shall be in any manner removed, changed, interfered with or obstructed in and for the purpose of constructing said tunnel, all to the satisfaction, approval and acceptance of said City Engineer; and on the further condition that said company, its successors and assigns, shall hold the City of Minneapolis harmless from any and all loss and damage occasioned by reason of the construction, maintenance or use of said tunnel in and across said street, and shall assume the defense of any and all suits and actions brought for the recovery of the same intervening therein if necessary for the purpose of defense, and shall wholly protect, relieve and save harmless the City of Minneapolis from all liabilities of every kind and description on account of the acts and omissions of said company, its agents, servants or employes, in connection with the construction, maintenance or use of said tunnel, and for the purpose of securing the City of Minneapolis against all loss and damage, said company shall file with the City Clerk of the City of Minneapolis a bond in the penal sum of $5,000.00, with sureties thereon to be approved by the City Council, conditioned that said company shall faithfully observe, keep and perform all and singular the conditions and provisions of this ordinance.

Section 2. The City Council of the City of Minneapolis hereby reserves the right to repeal this ordinance and revoke the permission hereby granted whenever, in the opinion of this or any subsequent City Council, the public interest demands that said tunnel be closed or removed from said avenue, and the City Council is hereby made the sole judge of such necessity.

Section 3. Nothing in this ordinance shall be construed as giving to said company, its successors or assigns, any exclusive privilege in said street, or as a guaranty of any of the rights or privileges herein granted, and said company, its successors and

assigns, shall at all times be subject to all ordinances of the City of Minneapolis now existing, or which may hereafter be passed relative to the use of streets or public places in said City for underground wiring or any other purpose.

Section 4. Within 60 days after the publication of this ordinance said company shall file its written acceptance of this ordinance and of the conditions thereof, and a bond as herein provided, with the City Clerk of the City of Minneapolis, and the failure to file such acceptance and such bond within the time specified shall render this ordinance null and void.

Section 5. This ordinance shall take effect from and after its publication and the acceptance thereof as herein provided.

CITY COUNCIL

REGULAR MEETING

August 10, 1928

OFFICIAL PROCEEDINGS

(Published August 14, 1928, in The Minneapolis Star.)
Council Chamber,
Minneapolis, Minnesota,
August 10, 1928, 9:30 a.m.

Present: Aldermen Ritten, Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Brown, Rosander, Peterson, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—24. Absent, Aldermen Bastis, Sheffield—2.

The minutes of the proceedings of the special meeting of June 23, 1928, and the regular meeting of June 29, 1928, were approved.

From His Honor, John Ryan, Acting Mayor—

The Honorable City Council, Minneapolis—

Gentlemen:

I am returning the attached resolution, entitled

"A resolution establishing building lines and designating building line easements upon and in lands along and adjoining Linden avenue, between 13th street north and Aldrich avenue north, and upon and in lands along and adjoining Aldrich avenue north, between Linden avenue and Superior avenue," passed by your Honorable Body on July 27, 1928, unsigned for the following reasons:

I have carefully considered the provisions of this resolution, and at the request of a number of citizens and property owners who strenuously object to the passage of such a resolution I personally held a meeting whereat both sides were present—those favoring and those opposing the provisions of this resolution.

From the facts submitted and the information given it is my opinion that the project as called for in said resolution, is not necessary at this time and would only incur an expense unnecessary now. The development of the particular district involved does not call for such a project at present, and possibly same will not be needed for some years to come.

There is also a difference of opinion among engineers and citizens as to the advisability of such widening and easements along Linden avenue. I am satisfied that the widening and paving of Linden avenue at this time is not needed and will result in an unnecessary increase in taxes, and be of no particular benefit to the public or to the interested property owners. I find that over two-thirds of the property owners in this district and adjoining the proposed project are emphatically opposed to the widening and paving of Linden avenue.

I believe that there are many other projects more necessary to the welfare of the City at this time, and that owing to the financial condition of the City no unnecessary expense should be incurred, especially in projects that are not of immediate importance.

Very truly yours,
JOHN RYAN,
Acting Mayor.

The question being, "Shall the resolution pass notwithstanding the veto of the Acting Mayor?" Alderman Currie moved that the resolu-

tion be referred to the Committee on Roads and Bridges.

Adopted.

The motion of Alderman Gisslen (of July 13, 1928) to take from Committee on Claims report of said Committee, laid over on July 27, was read.

Alderman Hawley moved that the matter be laid over until the next regular meeting of the City Council, on account of hearing to be held on this date on this matter.

Adopted.

From James Robertson, Attorney for Henry N. Knott — Request for cancellation of three checks for $75 each, payable to Edward W. Hawley, and issuance of new check payable to Earle Brown, Sheriff, for payment of cost in judgment of Henry N. Knott vs. Edward W. Hawley.

Alderman Hawley moved that this matter be laid over until the next regular meeting of the City Council.

Adopted.

UNFINISHED BUSINESS

Alderman Benson asked unanimous consent to introduce an ordinance amending an ordinance entitled "An ordinance to revise, rearrange and supplement an ordinance entitled 'An ordinance to regulate the use of water from the water works of the City of Minneapolis, and to establish rules and regulations for the government of employes and rates pertaining thereto,' approved May 2, 1887, and subsequently amended," passed December 29, 1911, as subsequently amended.

Alderman Sweeney objected.

Alderman Turner moved that the ordinance be referred to the Committee on Ordinances and Legislation, to report back next Thursday (August 16).

Adopted.

Alderman Rosander was granted unanimous consent to introduce an ordinance to amend an ordinance entitled "An ordinance regulating licenses in the City of Minneapolis," passed April 29, 1887, as subsequently amended, which said ordinance (relating to wagon peddlers) was given its first reading.

Alderman Rendell moved that the ordinance be referred to the Committee on Ordinances and Legislation, to report back next Thursday (August 16).

Adopted.

MOTIONS AND RESOLUTIONS

Alderman Kjorlaug moved that when this Council adjourns it adjourn until Thursday, August 16, 1928, at 10 o'clock a.m., and that said meeting be and it is hereby declared to be an adjourned session of the regular meeting of August 10, 1928.

Adopted.

Alderman Sweeney moved that assignment of wages and compensation of John P. McCann, an employe of the City of Minneapolis to John McShane for a period of sixty days from August 6, 1928, be approved and that the City Council of the City of Minneapolis and the City of Minneapolis do consent in writing to the said assignment of John P. McCann of all his wages, salary and compensation as an employe of the City of Minneapolis to be earned by him and to become due him from the City of Minneapolis during the period of sixty days from August 6, 1928, and that the Mayor, City Comptroller and City Clerk be and are hereby authorized to execute on behalf of the City of Minneapolis a consent in writing to said assignment.

Adopted.

Alderman Kjorlaug moved that the name of Alderman Chase be substituted for the name of Alderman Kjorlaug on the Standing Committee on Water Works, and that the name of Alderman Kjorlaug be substituted for the name of Alderman Chase on the Standing Committee on Fire Prevention.

Adopted.

Alderman Kjorlaug moved that the ordinance creating a fire prevention bureau be taken from the Committee on Fire Department.

Adopted.

Alderman Kjorlaug moved that the ordinance creating a fire prevention bureau be referred to the Committee on Fire Prevention.

Alderman Sweeney moved to amend the motion of Alderman Kjor-

laug by referring said ordinance to a joint committee of Ordinances and Legislation and Fire Prevention.

Alderman Peterson moved to amend the motion of Alderman Sweeney, to refer said ordinance to a joint committee of Fire Prevention and Ordinances and Legislation.

Adopted.

The question being on the adoption of the motion of Alderman Sweeney, as amended, it was adopted.

The question then being on the adoption of the motion of Alderman Kjorlaug, as amended, it was adopted.

Aldermen Benson, Peterson and Johnson moved that, whereas, on the 27th day of April, 1928, the City Council of the City of Minneapolis submitted to the Chicago, Milwaukee, St. Paul and Pacific Railway Company, three questions relative to the separation of grades of the streets and main line tracks of the said Railway Company in South Minneapolis as to—first, a definite plan of separation of said grades, and to the extent thereof; second, approximate dates of commencement and completion thereof; and, third, estimated cost of its proposal, together with a statement of its position as to how cost is to be borne, and

Whereas, on the 11th day of May, 1928, the said Railway Company submitted their answers to said questions, and thereby offered to elevate the tracks by substantially a complete elevation, and presented duplicate prints of their proposed method of separation in explanation thereof; and, second, estimated that the work could be commenced within one year after a final agreement had been reached, and carried to completion within the three following working seasons, and, third, estimated that the cost of the said project would be $4,100,000.00, and that the cost should be divided equally between the City and the Railway Company, and

Whereas, said answers or proposals by the said Railway Company were referred by the City Council to the City Engineer and City Attorney for study, and

Whereas, the City Council of the City of Minneapolis is willing and anxious to co-operate with said Railway Company for the purpose of affecting an amicable and mutually satisfactory agreement, which will relieve the traffic congestion caused by the existing conditions.

Now, therefore, by this motion the City Council of Minneapolis requests and directs the City Engineer to prepare a plan for a merger of passenger and freight terminals of the said Railway Company with the freight and passenger terminals of the Great Northern Railway Company, for the purpose of relieving present traffic congestion, and report back to the City Council such a plan within sixty (60) days.

This motion is made with a view to submitting in answer to the said proposals of the Chicago, Milwaukee, St. Paul and Pacific Railway Company the alternative counter-proposals on the part of the City of Minneapolis:

First, that the said Railway Company merge its freight and passenger terminals with the Great Northern Company's terminals, thus relieving the traffic congestion, or

Second, that the said Chicago, Milwaukee, St. Paul and Pacific Railway Company pay towards the carrying out and completion of the plan of grade separation required by the ordinances of the City of Minneapolis, the sum of $4,100,000.00, which sum the said Railway Company estimates as the cost of a complete elevation program, and which sum will cover the cost of carrying out the City's plan, according to the estimate of the City Engineer and competent contractors.

Adopted.

Aldermen Kjorlaug and Robb moved to amend Special Permit granted July 27, 1928, to J. H. Stodden to erect a garage at 4600 Garfield avenue south by striking out the words and figures "Distance from street line 10 feet" and inserting in lieu thereof the words and figures "Distance from the street line 5½ feet."

Adopted.

Alderman Turner moved that the heads of departments put in their requests for improvements for three to five year programs.

Adopted.

Aldermen Gisslen and Pearson moved that the bills submitted for crushed rock from the Gopher Stone Company, amounting to $1,607.59 and used in Elwell No. 701, be and hereby are ordered paid from the proper Elwell proceeding funds.

Aldermen Pearson and Gisslen moved that the bills submitted for work done by the Ninth Ward Street Department be paid from unexpended balances of the various projects upon which work has been done and credited to the Ninth Ward Street Fund.

Adopted—Yeas, 24; nays, none, as follows: Yeas — Aldermen Ritten, Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Brown, Rosander, Peterson, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—24.

Aldermen Pearson and Gisslen moved that the City Engineer raise the curb and gutter on the south side of Summer street from Adams street east to alley; on 32nd avenue northeast from Ulysses to Hayes street northeast, both sides of the street; on 33rd avenue northeast from Buchanan to Pierce street northeast, both sides of the street; expense of same to be paid out of the Curb and Gutter Repair Fund.

Adopted.

Alderman Pearson moved that the Supervisor of Water Works be instructed to move the present water hydrant on the north side of Lowry avenue and east of Ulysses street to the east side of Ulysses street north of Lowry avenue northeast, cost of same to be paid from Water Works Fund.

Adopted.

Alderman Giebenhain moved that the Street Commissioner of the Tenth Ward be and hereby is directed to grade the alley between Logan and Morgan avenues north from 27th avenue to 29th avenues north; and also north end of alley between Lyndale avenue and 6th street north from 36th avenue to 37th avenue north, and that the City Engineer be and hereby is instructed and directed to set the lines and grades for said grading, according to the plats, profiles and grades on file in his office.

Adopted.

Alderman Giebenhain moved that the Street Commissioner be directed to grade the alley at Newton and Oliver avenue north from 36th avenue to 37th avenue north and to cinder the same whenever the money necessary is deposited in the City Treasury, and that the City Engineer be and hereby is instructed and directed to set the lines and grades for said grading, according to the plats, profiles and grades on file in his office. The cost of said grading to be paid from the Tenth Ward Street Fund.

Adopted.

Aldermen Turner and Swanson moved that East 56th street from Portland avenue to Edgewater boulevard, that East 55th and East 57th streets from Chicago avenue to 15th avenue south; and that 10th and 11th avenues south from East 54th street to South City Limits be improved by grading, graveling and 3-foot curb and gutter, under the ten year Elwell Law, all costs being paid by the abutting property. Referred to Committee on Good Roads.

Alderman Giebenhain moved that Oliver avenue north from 49th avenue to 51st avenue north be graded and cindered under the ten year Elwell Law, property to pay the whole cost. Referred to Committee on Good Roads.

Aldermen Turner and Swanson moved that Chicago, Elliot and 14th avenues south be opened and improved with grading, graveling and a 3-foot curb and gutter, from East 54th street to South City Limits, under the ten year Elwell Law, all costs being paid by benefited property. Referred to Committee on Roads and Bridges.

Alderman Kjorlaug moved that the bill of Chas. J. Hedwall Co. for $2.50 premium on bond of City Assessor, be paid from the City Assessor's Subdivision of the Current Expense Fund.

Adopted—Yeas, 24; nays, none, as follows: Yeas — Aldermen Ritten, Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Brown, Rosander, Peterson, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—24.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. That Section 2 of the above quoted ordinance, as amended, be and the same is hereby further amended by inserting therein, immediately after the words, "from the City Council to do such work", and immediately before the words, "It shall be the duty", the following sentence: No holder of any such plumber's license shall allow his or their name to be used by any other person or persons either for the purpose of doing plumbing work or obtaining permit therefor, nor cause or permit any person in his or their employ to do or perform any plumbing work for him or them without such employe having first obtained a certificate of competency from the Board of Examiners of Plumbers, as required by an ordinance entitled, "An ordinance regulating the licensing of plumbers in the City of Minneapolis", approved April 15, 1897, as subsequently amended, and any violation of these provisions by any such licensee or licensees shall be deemed good and sufficient cause for the revocation of his or their license, and the Inspector of Buildings is hereby authorized to refuse to issue further permits to any licensee or licensees so violating said provisions.

Section 2. That the first paragraph of Section 6 of the above quoted ordinance be and the same is hereby amended to read as follows:

Section 6. In general, all material used in any plumbing and drainage system shall be of good quality and free from defects. All labor shall be performed in a thorough and workmanlike manner. All piping shall be run as direct as possible, and so arranged that it may be readily repaired.

Section 3. That Section 8 of the above quoted ordinance be and the same is hereby amended to read as follows:

SOIL AND VENTILATION PIPES; ROOF-CAPS

Section 8. Soil pipes receiving the discharge from one or more water closets shall be extra heavy cast iron soil pipe, the same as specified for drains, and shall not be less than four (4) inches in internal diameter, and shall continue of undiminished size through the roof of the building, and above and ten (10) feet away from any opening or window, and shall, after test has been made, be left open at the top. Provided, however, that where more than one (1) soil pipe or stack is required in any building, extending above the first story of the building, such soil pipe or stack shall continue of undiminished size up to and through the roof. Each vent stack, less than four (4) inches in internal diameter and serving a water-closet located above the basement floor, shall, if it is to extend through the roof, be increased to a diameter of four (4) inches at a point two (2) feet below the roof and shall continue of such size to the top of such stack. Such soil pipes, and also all ventilation pipes which pass through the roof, shall extetnd at least twelve (12) inches above the roof, and shall be encased in a galvanized iron frost jacket so arranged and installed that there shall be an air space of at least one (1) inch between the outside surface of the pipe and the inside surface of the frost jacket, and said frost jacket shall extend from the top of the pipe it encloses down to and through the roof, except in the case of a concrete roof. The top of the frost jacket shall be so designed as to permit of the insertion therein of a testing plug of such form that it can be readily seen from the ground until removed, and said plug shall be removed at once after a final satisfactory test of the work has been approved by the Plumbing Inspector. Any plumber failing to remove said plug immediately after a final satisfactory test of the plumbing has been made by the Plumbing

Inspector, shall, upon conviction thereof, be subject to the penalty herein provided for any violation of the provisions of this ordinance. Provided, however, that whenever such soil or ventilation pipes are run up and out of ventilation flues, the said roof jacket may be omitted. Provided, further, that in all cases the terminals of all soil or ventilation pipes shall be above any window less than ten (10) feet from such terminal. Where one building adjoins another of a greater height having windows or openings overlooking the lower building, the terminals of all soil and ventilation pipes in said lower building shall be at least ten (10) feet from said windows or openings of the higher building, or said terminals may be extended, undiminished in size, above any windows or openings of such higher building. Such extensions shall be properly secured and provided with frost jackets as above required.

Section 4. That Section 10 of the above quoted ordinance, as amended, be and the same is hereby further amended by inserting, immediately after the second paragraph of said section, the following paragraph:

All traps connected to any horizontal waste line shall be installed above the level of such waste line.

Section 5. That Section 10 of the above quoted ordinance, as amended, be and the same is hereby further amended by striking out that certain paragraph thereof beginning with the words, "In all buildings, except private garages", and substituting in lieu thereof the following paragraph:

In all buildings, except private garages, in which wash-racks are installed, each waste stack receiving the discharge from any wash-rack shall be connected, below the lowest wash-rack it serves, into a catch-basin of water-tight construction and of not less than thirty-five (35) cubic feet in content, protected by a back-water valve and provided with a water seal of not less than three (3) inches on the inlet and of not less than fourteen (14) inches on the outlet of such catch-basin and with a three (3) inch vent pipe extending to and through roof of building, and where any wash-rack is installed on any floor above that on which the catch-basin is located and discharges into the vent pipe of such catch-basin, said waste and vent line, as it then becomes, shall be not less than four (4) inches in diameter; and where any wash-rack is installed more than one (1) floor above the catch-basin serving same, a three (3) inch return vent line shall be connected into the above mentioned waste and vent line above the highest wash-rack connected thereto and extended down to and connected into the top of such catch-basin; and a back-water valve shall be installed between each wash-rack installed on any floor above the catch-basin serving same and the waste and vent line into which it discharges. Each such catch-basin shall be provided with a non-perforated iron cover not less than twenty-four (24) inches in diameter, set in an iron frame. In no case shall any other fixture be connected to or discharge into the same waste or waste and vent line into which any wash-rack or wash-racks discharge.

Section 6. That Section 10 of the above quoted ordinance, as amended, be and the same is hereby further amended by striking out the sub-heading reading, "Size of Traps:", and that paragraph immediately following said sub-heading, beginning with the words, "No trap shall be", and by striking out the sub-heading reading, "Installation of Traps:", and that paragraph immediately following thereafter, beginning with the words, "All traps shall be back-vented."

Section 7. That that certain paragraph of Section 11 of the above quoted ordinance, as amended, beginning with the words, "Connection of lead pipes with those of iron", be and the same is hereby further amended by striking out the words, "or washers shall be used on vent connections", where the same occur at the end of the last sentence of said paragraph, and substituting in lieu thereof the following punctuation and words:—,other than of metal to metal, shall be used on vent connections, nor on any waste connections except where placed in accessible locations.

Section 8. That Section 11 of the above quoted ordinance, as amended, be and the same is hereby further amended by striking out the period at the end of the last paragraph of said section and substituting in lieu thereof the following punctuation and words:, or other types of connections may be employed when approved by the Department of Buildings.

Section 9. That that first paragraph of Section 12 of the above quoted ordinance, as amended, be and the same is hereby further amended to read as follows:

Section 12. House drains shall not be less than four (4) inches in diameter, and shall be larger when required by the Department of Buildings, and shall not have less than two (2) clean-outs on the main run in the basement or cellar, unless the vertical run shall be within ten (10) feet of the exit to sewer through the outside wall, in which case the clean-out at the foot of the stack may be omitted. One of such clean-outs shall be near the foot of the vertical run and the other near the outside wall of the building near where connection is made with the sewer. Provided, however, that in no case shall more than fifty (50) feet of ground or main run be allowed to intervene between any two clean-outs. Such clean-outs shall be at least four (4) inches in internal diameter and shall have substantial brass screw covers with standard pipe threads, and having nuts on such covers at least one and one-eighth (1⅛) inches square and at least five-eighths (⅝) of an inch in height or depth, and such covers shall weigh at least twelve (12) ounces. Larger covers shall be of similar pattern and proportional weight, subject to the approval of the Department of Buildings, and all such covers shall be of such form as can be readily removed. Provided, however, that no such clean-outs shall be required to be more than six (6) inches in internal diameter. Wherever a clean-out is placed below the top of the cellar floor, there shall be provided a box of sufficient depth and of a size at least fourteen by sixteen (14x16) inches for such clean-out, said box to be so placed as to admit of ready access to such clean-out. Provided, however, that, if the distance from the top of the clean-out to the top of the cellar floor exceeds two (2) feet, a brick or concrete manhole at least three (3) feet in diameter, with a twenty-four (24) inch iron cover, shall be provided instead of the box above provided for.

Section 10. That Section 13 of the above quoted ordinance be and the same is hereby amended to read as follows:

STACKS—GENERAL REQUIREMENTS

Section 13. Stack shall be constructed of extra-heavy cast iron or of galvanized wrought iron or steel pipes.

Every building in which water-closets are located shall have at least one (1) four (4) inch soil pipe stack, except that a vent stack two (2) inches in diameter may be used in stables and vehicle houses which are connected with a house drain that is provided with a four (4) inch stack. The size of any soil stack receiving the discharge from water-closets shall depend upon the number of such closets discharging into it, and shall not be less than that given in the following table:

Diameter	No. Water-Closets Allowed
4 inches	1-30
5 inches	30-50
6 inches	No limit

Where it is not practicable to run as large a stack as above specified, the Inspector may allow the use of a smaller size, provided that no stack shall be less than three (3) inches in internal diameter.

Six (6) minor fixtures shall count as one (1) water-closet, and three (3) slop-sinks as one (1) water-closet, in determining the size of waste-stacks or waste lines. The term, "minor fixtures", shall be taken to mean and include any fixture other than a water-closet, slop-sink or stall urinal.

In the construction of waste and vent stacks in buildings more than four (4) stories in height, where such stacks receive the discharge from and ventilate any fixture with a trap exceeding two (2) inches in diameter, each such vent stack shall tie into or connect with the waste stack it serves with a "Y" and eighth bend below the first floor, where practicable, and, where not practicable so to do, at a point to be approved by the Department of Buildings, and such a connection shall always be made below the lowest fixture connected at any time to any such waste stack above the basement floor, and each such vent stack shall also similarly connect into such waste stack with a cross connection at intervals above such lowest connection such that not more than three (3) floors shall intervene between any two such cross connections or between such lowest connection and the first of such cross connections above same. Each such lowest "Y" and eighth bend connection shall be not less than four (4) inches in diameter where the height of the building is not less than ten (10) stories. Each such vent stack so installed in buildings exceeding ten (10) stories in height shall be not less than four (4) inches in diameter up to and including the sixteenth (16th) story vent connections, shall be increased to five (5) inches in diameter from that

point to the twentieth (20th) story vent connections, and shall there be increased to six (6) inches for all stories above. In buildings more than twenty (20) stories in height, a break or offset shall be made in each waste stack, to check the velocity of flow in such stack, and the manner of making each such break or offset, the location of same and the manner in which the base of each such stack is connected with ground run of sewer shall each be subject to the approval of the Department of Buildings.

In buildings more than four (4) stories in height, where any waste stack is offset at any point, to avoid extending it through a room below, and one or more water closets are connected to such stack at a height of four or more stories above such offset, any fixture on the floor at which such offset occurs, which is to be connected to such stack, shall be connected thereto at a point not less than ten (10) feet distant from the base of the vertical portion of such stack above such offset, or into the vertical portion of such stack below such offset.

In the construction of waste and vent stacks in buildings more than four (4) stories in height, where such stacks do not receive the discharge from or ventilate any fixture with a trap exceeding two (2) inches in diameter, no such stacks shall be less than three (3) inches in diameter, and each such vent stack shall tie into or connect with the waste stack it serves with a "Y" and eighth bend below the first floor, where practicable, and, where not practicable so to do, at a point to be approved by the Department of Buildings, and each such vent stack shall also similarly connect into such waste stack with a cross connection not less than two (2) inches in diameter at intervals above such lowest connection such that not more than three (3) floors shall intervene between any two such cross connections or between such lowest connection and the first of such two-inch cross connections. The size of each branch waste and vent connection to such stacks shall comply with the requirements of this ordinance for waste and vent pipes. Provided, however, that no urinal shall be connected to any such waste stack to which any wash basin is connected.

Section 11. That Section 14 of the above quoted ordinance, as amended, be and the same is hereby amended to read as follows:

Section 14. Wastes, except as herein provided, shall be of cast iron, galvanized wrought iron or steel, lead, brass or copper. Wastes shall have at least one-eighth (⅛) of an inch fall per running foot wherever practicable.

Wastes from milk-vats and sterilizers in creameries, from wash-trays and washing machines in public laundries, and from special fixtures in dyehouses and cooling rooms of bakeries and in other similar establishments, and from sprinkler systems and humidifiers, shall discharge into an open fixture, which shall be properly trapped and installed subject to the approval of the Inspector.

Refrigerator Wastes:

No refrigerator or other receptacle in which provisions are stored or kept shall be connected with the soil, drain, waste or vent pipes, or discharge upon tthe ground beneath the building, but in every case the waste from such refrigerator or receptacle shall be provided with a trap and shall discharge into an open sink, tray or other fixture which is properly trapped.

Exhaust Pipes:

The exhaust, blow-off or drip from a boiler shall not connect directly with any sewer, waste, vent-pipe or rain-water leader. All such pipes shall discharge into a condenser of sufficient size.

In the case of high pressure boiler plants, said condenser shall be of cast-iron, or steel plate with bolted cover and shall be provided with a two (2) inch vapor pipe leading to the outer air above the roof of the building and shall also be provided with a water-cooling pipe of sufficient size, and properly connected; all to be installed in a manner to be approved by the Inspector.

Safe Wastes:

Wastes from safes, and overflow from tanks, except as herein provided, shall not connect with any drain, soil, waste or ventilation pipes. All such wastes shall discharge into an open fixture that is properly trapped.

Other Wastes:

In no case shall the waste pipe of any other fixture connect to the house side, or in the seal, of any trap. All connections shall be so made as not to disturb the seal of any trap.

No waste pipes from bath-tubs or wash basins shall connect into the lead bend under a water-closet, but

in every case shall waste into the soil stack through a separate opening.

Wherever a battery of more than four (4) stall-urinals are installed on the same horizontal waste, such waste shall be not less than three (3) inches in diameter.

Waste Pipes, Sizes of:

The sizes of waste pipes receiving the discharge of plumbing fixtures, the maximum permissible lengths of such sizes, and the maximum number of fixtures which may be connected thereto, shall, except as herein otherwise provided, be as shown in the following two (2) tables:

Waste Pipes Receiving Discharge from Fixtures, Other Than Sinks, Having Traps Less Than Two Inches in Diameter:

Diameter of Waste Pipe	Number of Fixtures Allowed	Maximum Length Allowed	After Maximum Allowed Length is Reached, Increase One Size for Every
1¼ in.	1 (basin only)	20 ft.	20 ft.
1½ in.	3	30 ft.	20 ft.
2 in.	12	40 ft.	20 ft.
2½ in.	20	40 ft.	20 ft.
3 in.	36	40 ft.	20 ft.
4 in.	No limit	No limit	No limit

Waste Pipes Receiving Discharge from Sinks, and from Slop-Sinks or Urinals Having Traps Two Inches in Diameter:

Diameter of Waste Pipe	Number of Fixtures Allowed	Maximum Length Allowed	After Maximum Allowed Length is Reached, Increase One Size for Every
1½ in.	2 (sinks only)	30 ft.	40 ft.
2 in.	8	30 ft.	40 ft.
2½ in.	12	40 ft.	40 ft.
3 in.	20	40 ft.	40 ft.
4 in.	No limit	No limit	No limit

The minimum size allowed for slop-sink or urinal wastes shall not be less than two (2) inches.

No waste line shall be of less diameter than the trap of any fixture discharging into same.

Section 12. That Section 15 of the above quoted ordinance, as amended, be and the same is hereby further amended to read as follows:

BACK-VENTS—GENERAL REQUIREMENTS

Section 15. All fixture traps, except as herein provided, shall be back-vented. Back-vents shall connect as near to crown of trap as practicable, and in no case more than one (1) foot from the trap. Provided, however, that where fixtures are installed on a vertical waste and vent line, each trap shall be placed as near to fixture as practicable and the horizontal distance from any such fixture to such waste and vent line shall not exceed two (2) feet, and not more than two (2) such fixtures shall be so connected. Provided, further, that where fixtures, each having a trap not less than two (2) inches in diameter, are placed on a horizontal waste line and each such trap is placed as near fixture as practicable, in lieu of an individual vent for each fixture a vent pipe not less than two (2) inches in diameter may be installed for each two (2) of such fixtures and connected into said horizontal waste line at a point between said fixtures, but the horizontal distance from either of said fixtures to said vent line shall not exceed two (2) feet, and in no case shall more than two (2) fixtures be connected to any one such vent. Provided, further, that where sinks or basins are placed on a vertical stack, in buildings not exceeding four (4) stories in height, and where such stacks are increased to four (4) inches two (2) feet below the roof of any such building, and where the horizontal distance from the trap of any such sink or basin to said stack does not exceeed one (1) foot, no reventing shall be required, and the allowable number of any such fixtures on any such stack shall be determined by the size of the stack in accordance with the following table:

Two-story buildings, 2-inch stack, 2 fixtures.

Two-story buildings, 3-inch stack, 4 fixtures.

Three-story buildings, 3 inch stack, 3 fixtures.

Three and 4-story buildings, 4-inch stack, 8 fixtures.

No horizontal vent shall be used between waste line and the water line of any fixture served by such vent, but such vent shall in every case be installed on an up-grade of at least forty-five (45) degrees to a point above such water line.

All joints of wrought iron on waste and vent pipes two (2) inches or less in diameter shall be made with right and left couplings, and shall be wiped, if of lead, and caulked, if of iron. Flange unions with lead gaskets may be used on larger connections if placed in accessible locations, or such larger connections may be made in the manner above prescribed for such smaller connections.

Where vent pipes are connected to the stack in the attic, if at a greater distance than fifteen (15) feet from the stack, they shall be run on a slant of at least forty-five (45) degrees, if practicable so to do, and, if not, shall continue straight through the roof.

Back-vents shall be cast iron, wrought iron or steel, brass or copper.

Vent pipes shall be run as straight as possible, and with an up-grade to avoid trapping of condensation, and in all cases where vent pipes connect to soil pipes, such connection shall be not less than one (1) foot above the highest fixture.

Vent pipes may be run out separately through the roof, and when so run they shall be encased in a frost jacket such as herein provided for soil pipes extending through the roof, or if they run in, up or out of a ventilating chimney flue, such frost-jacket may be omitted.

No vent pipe extending through the roof shall be of less size than two (2) inches, from a point two (2) feet below the roof to the top of such vent pipe.

Earthenware vent connections are prohibited.

Where a water-closet is installed on the top floor of any building within two (2) feet of the stack, and no other waste pipe connects with the stack at a higher point, no back-vent will be required.

Provided, however, that where only one water-closet and one minor fixture are installed in the basement of any two-story building and there are not to exceed two water-closets on the floors above such basement floor which are connected to the same run, the vent pipe may be only one and one-half (1½) inches in size.

Except as herein otherwise provided no water-closet vent shall be of less size than two (2) inches.

Wherever a battery of three (3) or more water-closets are installed on the same horizontal waste, the vent may be returned from between the two closets most remote from the waste stack and connected to such stack at least six (6) inches above the water line of the highest fixture. Such vent shall be not less than three (3) inches in diameter where there are not more than four (4) such closets, and, where there are more than four, such vent shall be increased to four (4) inches in diameter above all closets between waste stack and the four closets most remote therefrom and an additional two (2) inch vent pipe shall be run from said four-inch vent and connected with said horizontal waste for every two (2) such closets in excess of four.

Wherever a battery of three (3) or more stall-urinals are installed on the same horizontal waste, the vent may be returned from between the two urinals most remote from the waste stack and connected to such stack at least six (6) inches above the water line of the highest fixture. Such vent shall be not less than two and one-half (2½) inches in diameter where there are not more than four (4) such urinals, and, where there are more than four, such vent shall be increased to three (3) inches in diameter above all urinals between waste stack and the four urinals most remote therefrom and an additional two (2) inch vent pipe shall be run from said three-inch vent and connected with said horizontal waste for every two (2) such urinals in excess of four.

Back-Vents, Sizes of:

The sizes of vent stacks and vent lines for the ventilation of plumbing fixtures, the maximum permissible lengths of such sizes, and the maximum number of fixtures which may be connected thereto, shall, except as herein otherwise provided, be as shown in the following three (3) tables:

Back-Vents for Fixtures, Other Than Sinks, Having Traps Less Than Two Inches in Diameter:

Diameter of Back-Vent	Number of Fixtures Allowed	Maximum Length Allowed	After Maximum Allowed Length is Reached, Increase One Size for Every
1¼ in.	1	30 ft.	20 ft.
1½ in.	3	35 ft.	20 ft.
2 in.	12	40 ft.	20 ft.
2½ in.	20	40 ft.	20 ft.
3 in.	36	40 ft.	20 ft.
4 in.	No limit	No limit	No limit

Back-Vents for Sinks, and for Slop-Sinks or Urinals Having Traps Two Inches in Diameter:

Diameter of Back-Vent	Number of Fixtures Allowed	Maximum Length Allowed	After Maximum Allowed Length is Reached, Increase for Every One Size
1½ in.	2	30 ft.	40 ft.
2 in.	8	30 ft.	40 ft.
2½ in.	12	40 ft.	40 ft.
3 in.	20	40 ft.	40 ft.
4 in.	No limit	No limit	No limit

Back-Vents for Water-Closets, and for Fixtures Having Traps Larger Than Two Inches in Diameter:

Diameter of Back-Vent	Number of Fixtures Allowed	Maximum Length Allowed	After Maximum Allowed Length is Reached, Increase for Every One Size
2 in.	4	30 ft.	40 ft.
2½ in.	8	40 ft.	40 ft.
3 in.	15	40 ft.	40 ft.
4 in.	No limit	40 ft. (See Sec. 13)	

On any vent stack or vent line serving water-closets and installed in accordance with the last of the three preceding tables, for twenty-five (25) per cent only of the number of water-closets which would be permitted by such table to be connected to such vent stack or vent line minor fixtures or slop sinks or urinals may be substituted in the ratios of six (6) such minor fixtures, or three (3) such slop-sinks, or three (3) such urinals, for each of the closets comprising such twenty-five per cent, but each minor fixture and each slop-sink and each urinal connected to any such vent stack or vent line, in excess of the number so substituted in lieu of water-closets, as above provided for, shall be counted as one (1) fixture of the number permitted by such table. The term, "minor fixture", shall be taken to mean and include any fixture other than a water-closet, slop-sink or urinal.

Where any two fixtures are set back to back and are served by a common waste and a common back-vent, such back-vent shall be not smaller than required hereby for such waste, except that in no such case shall such back-vent be required to exceed two (2) inches in diameter.

Section 13. That Section 17 of the above quoted ordinance be and the same is hereby amended by inserting, immediately after that certain paragraph of said section beginning with the words, "Where provision is made for fixture", the following paragraph:

All water supply pipes, inside of any building, supplying branch runs, and all sill-cock supply branches, shall be of not less than three-quarter (¾) inch pipe, and not more than three (3) openings shall be taken off of any one-half (½) inch branch run.

Section 14. That Section 18 of the above quoted ordinance, as amended, be and the same is hereby further amended to read as follows:

SPECIAL PERMITS

Section 18. In cases where, owing to the nature of the construction or arrangement of any building, it is impracticable, in the judgment of the Department of Buildings, to install certain portions of the plumbing in said building in strict accordance with the provisions of this ordinance, a detailed plan of the proposed plumbing system, or proposed portion of such system, showing the manner in which it is proposed to install and connect the same to the sewer system, shall be filed with the Department of Buildings, after which, if it shall appear to said department that the installation of such work, as so planned and detailed, would be safe and sanitary, said plans may be approved and a permit granted by such department for such proposed installation.

Section 15. This ordinance shall take effect and be in force from and after its publication.

Passed August 10, 1928. John Ryan, President of the Council.

Approved August 13, 1928. George E. Leach, Mayor.

Attest: Chas. C. Swanson, City Clerk.

AN ORDINANCE

Amending "An ordinance relating to and regulating the location, size, and use of buildings, the height of buildings, the arrangement of buildings on lots, and the density of population in the City of Minneapolis, and for the purpose of promoting the public health, safety, order, convenience, prosperity and general welfare in said City, and for said purpose to divide the City into districts", approved April 7, 1924, as amended.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. The above quoted ordinance approved April 7, 1924, as amended, two-thirds of the property owners within 100 feet of the real estate hereinbelow described having acquiesced therein by petition therefor, is hereby further amended by inserting immediately after Section 26a of said ordinance as amended the following paragraphs, to-wit:

All of Blocks 1, 2, 3 and 4, Mississippi Park Addition to Minneapolis, Minnesota, shall be and are hereby included in the Residence and "A" Density District established by this ordinance instead of in the Residence and "C" Density District, and shall be subject to all the regulations of this ordinance relating to such Residence and "A" Density District.

Section 2. This ordinance shall take effect and be in force from and after its publication.

Passed August 10, 1928. John Ryan, President of the Council.

Approved August 13, 1928. George E. Leach, Mayor.

Attest: Chas. C. Swanson, City Clerk.

AN ORDINANCE

To amend an ordinance entitled, "An ordinance to regulate the erection, construction, alteration and maintenance, within the City of Minneapolis, of buildings used or intended to be used for theaters, opera houses, auditoriums, and halls, and all buildings used for public assemblages of any kind and for whatever purpose, and to provide for the proper equipment with exits and stationary fire apparatus of all buildings now or hereafter built within the said city for such purposes; also to provide for proper exits and fire protection In department stores, hotels, flat buildings, lodging houses and factories, now or hereafter erected within the City of Minneapolis", approved May 6, 1904, as subsequently amended.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. That Section 42 of the above quoted ordinance be and the same is hereby amended by adding at the end thereof the following paragraphs:

Provided, however, that buildings not exceeding one (1) story in height, without balconies, with walls and partitions constructed of fireproof materials, without any basements except for the installation of heating plants installed in fireproof rooms, and without any wooden floor joists or flooring, with wooden roofs covered with approved tar and gravel top coverings and with their ceilings covered with metal lath and three coats of plastering, may be erected, maintained and used for religious purposes, and such buildings may seat more than one thousand (1,000) persons.

Wooden bleachers seating not to exceed five hundred (500) persons, may be installed in such buildings, provided they are properly supported upon non-combustible material.

No permit for the construction or erection of any such one-story building or structure to be used for religious purposes and having a seating capacity of more than 1,000 persons shall be issued by the Inspector of Buildings until the plans and general design of the same have been accepted and approved by the City Planning Commission.

Section 2. This ordinance shall take effect and be in force from and after its publication.

Passed August 10, 1928. John Ryan, President of the Council.

Approved August 13, 1928. George E. Leach, Mayor.

Attest: Chas. C. Swanson, City Clerk.

AN ORDINANCE

Amending an ordinance entitled "An ordinance granting permission to the Northwestern Terminal Company to construct, maintain and use a tunnel under and across Traffic street, in the City of Minneapolis", passed July 27, 1928.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. That the title of an ordinance entitled "An ordinance granting permission to the Northwestern Terminal Company to construct, maintain and use a tunnel under and across Traffic street, in the City of Minneapolis", passed July 27, 1928, be and the same is hereby amended by striking out the words "Northwestern Terminal Company" where the same appear therein, and inserting in place thereof the words "Glidden Company".

Section 2. That Section 1 of said ordinance be and the same is hereby amended so as to read as follows:

"Section 1. Permission is hereby granted to the Glidden Company to construct, maintain and use a tunnel under and across Traffic street, in the City of Minneapolis, the center line of such tunnel to commence at a point in the north line of said

Traffic street distant substantially 14 feet west of the southeast corner of block 13, in Minneapolis Industrial District, and to run thence southeasterly across said Traffic street to a point in the south line of said Traffic street distant substantially 5 feet east of the northwest corner of lot 3, in block 25, in said Minneapolis Industrial District, the top of said tunnel to be approximately 2 feet below the bottom of the curb, and said tunnel to be substantially 4 feet wide and six and one-half feet high, and to be constructed of round railroad machine-made tile having a loading of 2,000 pounds as made by Massey Concrete Products Company, or of a similar material, all according to a blueprint thereof on file with the City Engineer of said City marked 'Drawing No. 512', on condition that said tunnel shall be constructed and all work thereon done under the supervision and to the satisfaction of said Engineer, and on condition that said Company shall, within thirty days after the completion of said tunnel, properly replace, repair and restore the roadway, pavements, sidewalks and curbs and gutters, and other portions of said street, which shall be in any manner removed, changed, interfered with or obstructed in and for the purpose of constructing said tunnel, all to the satisfaction, approval and acceptance of said City Engineer; and on the further condition that said company, its successors and assigns, shall hold the City of Minneapolis harmless from any and all loss and damage occasioned by reason of the construction, maintenance or use of said tunnel in and across said street, and shall assume the defense of any and all suits and actions brought for the recovery of the same, intervening therein if necessary for the purpose of defense, and shall wholly protect, relieve and save harmless the City of Minneapolis from all liabilities of every kind and description on account of the acts and omissions of said company, its agents, servants or employes, in connection with the construction, maintenance or use of said tunnel, and for the purpose of securing the City of Minneapolis against all loss and damage, said company shall file with the City Clerk of the City of Minneapolis a bond in the penal sum of $5,000.00, with sureties thereon to be approved by the City Council, conditioned that said company shall faithfully observe, keep and perform all and singular the conditions and provisions of this ordinance."

Section 3. This ordinance shall take effect and be in force from and after its publication.

WATER MAINS

Resolved by the City Council of the City of Minneapolis:

That water mains of the following specified respective sizes of cast iron pipe be laid in the following named respective streets in the City of Minneapolis, at the depth of eight (8) feet below the street grade, with hydrants, gates and connections therewith, at suitable places.

19th avenue south, from 3rd street south to 4th street south, size in inches, 6.

And the City Engineer of said City is hereby directed upon the completion of said mains, or any of them, to make and present to the City Council an estimate and statement of the actual cost of such improvements, stating therein the proportion of such actual cost not to exceed the cost of a pipe six inches in diameter, which is required to construct such improvements, in front of abutting lands, and the proportion thereof required to construct the same across streets and alleys and in front of abutting lands not subject to special assessments, also a list of the several lots and parcels of land fronting upon such improvements, with the number of feet front of each extending along such improvements, and the names of owners of the several parcels, as nearly as the City Engineer can readily ascertain the same.

Passed August 20, 1928. John Ryan, President of the Council.

Approved August 21, 1928. George E. Leach, Mayor.

Attest: Chas. C. Swanson, City Clerk.

CITY COUNCIL

SPECIAL MEETING

Called by the Mayor

August 23, 1928

(Published August 24, 1928, in The Minneapolis Star.)

Council Chamber,
Minneapolis, Minnesota,
August 23, 1928—10:30 a.m.

Vice President Currie in the chair.

Present — Aldermen Sweeney, Fruen, Currie, Brown, Rosander, Bastis, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb—18. Absent—Aldermen Ritten, Hawley, Chase, Maurer, Peterson, Sheffield, Guider, President Ryan—8.

The Council met pursuant to the following call from his Honor, George E. Leach, Mayor, which call was issued under the provisions of Section 2, Chapter 4, of the City Charter, which provides for the calling of special meetings:

From His Honor, George E. Leach, Mayor—

Honorable Charles C. Swanson,
City Clerk,
Minneapolis.

You are hereby directed to call a special meeting of the City Council to be held at 10:30 o'clock a.m. on Thursday, August 23, 1928, in the Council Chamber of the City of Minneapolis for the purpose of working out some solution of the present dog situation.

Mr. McReavy of the Animal Rescue League advises me today that the League cannot continue the arrangements which were made with the City Council; and I presume it will be necessary therefore that some other arrangements be made.

I have taken the liberty of asking Mr. McReavy and Doctor Harrington to attend this special meeting so that they can give the City Council any first hand information desired.

Very truly yours,
George E. Leach.
Mayor.

Alderman Benson moved that Mayor Leach, who is responsible for the order with reference to dogs, and who called a special meeting of the City Council, be requested to attend this meeting and submit his views

Adopted.

Alderman Bastis moved that the Sergeant at Arms go to the Mayor's office and request him to be present at this meeting.

Adopted.

The Sergeant at Arms reported that the Mayor was out of the City.

Alderman Rendell moved that when this Council adjourns, it adjourn until Friday, August 24, 1928, at 10:00 a.m., and that the Mayor be invited to attend at that time.

Alderman Turner moved to amend such motion to read 2:00 o'clock p.m.

Alderman Rendell accepted the amendment.

The question being on the motion of Alderman Rendell, as amended, it was adopted.

Alderman Fruen moved that the

City Attorney be requested to read the ordinance concerning dogs.

Adopted.

The City Attorney read those sections of the ordinance under question.

Alderman Bastis moved that the communication submitted by the Mayor at the Council meeting held August 16, 1928, together with his proclamation, be read.

Adopted.

The Clerk read the communication and proclamation, as requested.

On request of the Council, Dr. Harrington and Mr. McReavy, President of the Animal Rescue League, addressed the Council.

Alderman Bastis moved that the motion, offered by Alderman Hawley, and adopted by the City Council at the meeting held August 16, 1928, "that Dr. Harrington be directed to consider himself duly authorized to direct operations of the Animal Rescue League in this matter," be rescinded.

Adopted.

Alderman Bastis moved that the City Clerk notify the Mayor forthwith of the action of the City Council in rescinding the motion relative to Dr. Harrington's having full responsibility in this matter.

Adopted.

Alderman Sweeney moved that the motion offered by Alderman Rendell, as amended, "that when this Council adjourns, it adjourn until Friday, August 24, 1928, at 2:00 o'clock p.m., and that the Mayor be invited to attend at that time", be and it is hereby rescinded.

Adopted.

Alderman Rendell moved to adjourn.

Adopted. Adjourned.

CHAS. C. SWANSON,
City Clerk.

From the Railroad and Warehouse Commission — Notice of hearing on petition of residents and property owners of City of Minneapolis for separation of grades of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company between 6th avenue south and 24th street east, in the City of Minneapolis, to be held on Monday, October 8, 1928, at 10:00 o'clock a. m. at the office of said Commission in St. Paul, Minnesota.

Aldermen Benson, Peterson and Johnson moved:

In view of the fact that the City Engineer is absent from the City on a trip to Europe and will not return until October 15th, and that Norton N. Cross, Special Counsel in the Milwaukee grade separation matters, will not return until December 1st, and since the City Engineer will have a proposal for grade separation to submit, and since the Great Northern Railway Company is disposed to give the Chicago, Milwaukee & St. Paul Railway Company facilities in connection with the Union Station that would possibly eliminate the grade separation problem, and since there has been no request for hearing before the Railroad and Warehouse Commission by either the City or the company, as provided by Chapter 336, Laws of 1925,

It is moved, that the City Attorney be requested to take such steps as may be necessary as to the hearing ordered by the Commission upon the request of certain citizens of Minneapolis, and in any event to request the postponement of any action in the matter by the Commission until after the return of the City Engineer to Minneapolis.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend upon advice from the City Planning Engineer, that the Police Department be authorized and directed to lay out and mark a no-parking zone on the westerly side of Emerson avenue south, beginning 87 feet north of the north line of West 24th street, thence north 60 feet, and to notify the proper persons at the Temple Israel of the requirements relative to purchase, placement and

maintenance of no-parking signs at places of public assembly.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend, upon advice from the City Planning Engineer, that the Bryant car stop on the southwest corner of Bryant avenue and Lake street be reduced to the width of the hydrant clearance space at this point, and that the Police Department be authorized and directed to so lay out and mark this car stop.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend, upon advice from the City Planning Engineer, that the Police Department Subdivision of the Current Expense Fund be increased by $500.00, money to come from the increased miscellaneous revenues.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles Rosander, Committee.

Referred to Committee on Ways and Means.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend that the Park Board be requested to remove the no-parking restrictions on the south side of Kenwood parkway, between Lyndale avenue and a point 30 feet west of the thru street stop sign.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend upon advice from the City Planning Engineer, that the mid-block loading zone on the southwesterly side of 9th street between LaSalle and Hennepin, be moved, to include all of the space, except for five foot clearances, between the two driveways adjoining Reinhard's store on the easterly side.

We further recommend that the City Engineer be authorized and directed to replace the curbing at 9th street and LaSalle avenue, in accordance with plat on file in the office of the City Engineer, costs thereof to be assessed against the abutting properties.

Albert G. Bastis, O. A. Pearson, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend upon advice from the City Planning Engineer, that the action of the City Council in directing the Police Department to remove the mid-block zone on the northeasterly side of 3rd street, between 3rd and 4th avenues south, be rescinded. (Central Supply Company.)

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend upon advice from the City Planning engineer, that the Purchasing Agent be authorized to order the printing of 25,000 copies of the traffic ordinance, with its amendments, on a better grade of stock, with paragraph headings reset into bold face type, costs to be paid for out of the Police Department Subdivision of the Current Expense Fund, printing to be done by the Pioneer Printers.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend upon advice from the City Planning Engineer, that at this time the Trunk Highway Route for 63, within the City limits, be established on Lowry avenue, between Central avenue and the Forest Lake Cut-off, and that the State Highway Department be authorized and permitted to mark said route as follows:

Beginning at the intersection of Lowry avenue with Forest Lake Cut-off; thence west to Central avenue (T. H. No. 5); thence south and southwesterly to East Hennepin avenue, thence westerly to Nicollet avenue; thence southwesterly to 13th street; thence northwesterly to LaSalle avenue.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend upon advice from the City Planning Engineer, that, in connection with the trial installation of the new Wallace and Tiernan Battery Flasher Caution Sign at Laurel and Hennepin, and in conformity with requirements of the traffic ordinance, that the Police Department be directed to paint the curb yellow for a distance of thirty feet on the approaching side of the caution sign.

We further recommend, as a measure of clearance at the angle in the street, that the curb be also painted for a distance of 15 feet in the rear of the sign, such work to be done when the installation of the sign is completed.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee reports that the improvement of the Grant Street Mall has been completed in practical uniformity with the plan prepared by the Planning Commission, and approved by the Traffic Committee and the Roads and Bridges Committee of the City Council, with the exception of a section of this roadway between 3rd avenue south and 12th street upon which no changes have been made because of litigation resulting from condemnation proceedings .

Improvement work can now be continued without interference with use of the Auditorium, and we have been informed by the City Attorney that the City has the right to immediately take possession of the land and building which formerly obstructed the work.

We therefore respectfully recommend that the City Engineer be directed to immediately take possession and to complete the improvement of the grounds and roadways in conformity with the general plan.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend upon advice from the City Planning Engineer, that the Police Department be authorized to lay out and mark traffic lines and direct traffic at Portland avenue and Grant street, so as to require all traffic to circulate around and to the right of the circle upon which has been placed the statue of Col. Stevens.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend that the Minneapolis Street Railway Company be requested to change their street car stop sign to a near-side car stop for the southbound Oak and Harriet car line at Washington avenue.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Alderman Hawley moved that the report be sent back to the Committee on Street Traffic for further consideration.

Adopted.

From the Standing Committee on Street Traffic –

Your Committee respectfully recommend upon advice from the City Planning Engineer, that the following petitions be denied, for the reasons given:

Petitions for loading zones:

Bearman Fruit Company, 107 6th street north. (Establishment of loading zone at this point would result in transferring difficulties in front of similar places of business adjoining the Bearman Fruit Company.)

American Mechanical Engineering Corporation, Nicollet and Franklin. (Franklin avenue side of building.) (Traffic conditions do not warrant establishment of such a zone.)

I. Wolk, 326 2nd avenue south. (Zone would fall within car stop.)

W. Forsyth, and others, 110 South 11th street. (Loading facilities in rear of property.)

Petition from Mun Hing Noodle Company, for time extension on midblock loading zone on southeasterly side of Hennepin avenue, between 7th and 8th streets. (Would open up stream of similar requests for varying periods of time regulations.)

Requests for curb changes:

Oak Street-Prospect Park Residents Association, Oak street at Washington.

Motion by Alderman Ekberg, 28th street and Cedar avenue. (Roadway widths permit convenient turning movement of one lane of vehicles.)

Petition from Claridge Apartments, 2517 Humboldt avenue south, for

sign prohibiting trucks from parking in front of building. (No law or ordinance that could be enforced relating to same.)

Petitions for stop and go signals: 37th street and Park avenue (E. M. Tousley). (Volume of traffic does not require traffic regulation.)

Dupont avenue south and 24th, 26th and 28th streets. (Street does not carry traffic comparable in volume with that on nearest adjoining thru streets.)

Petition for slow signals on Webber parkway (C. C. Webber).

We further recommend that the request for stop and go signals on 1st avenue south, between Grant street and Franklin avenue, be denied, but that the Police Department be directed to continue their present activities in enforcing the traffic ordinance provisions relative to careless driving in the above mentioned area.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend that the Engineering Department be instructed to bring about the changing of tires, from solid to pneumatic, on City-owned vehicles.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

From the Standing Committee on Street Traffic—

Your Committee respectfully recommend upon advice from the City Planning Engineer, that the accompanying ordinance designating as through streets, Dupont avenue south at 36th street, and Pillsbury avenue at 28th street, Nos. 37 and 36, respectively, be passed.

We further recommend that the Police Department be authorized and directed to purchase, on an installed basis, four arterial stop signs, two of the signs to be placed on the approaches to Dupont avenue at 36th street, and two on the approaches to 28th street at Pillsbury avenue, costs to be paid for out of the Traffic Signals Subdivision of the Permanent Improvement Fund.

Albert G. Bastis, O. A. Pearson, John P. Ekberg, Charles R. Rosander, Committee.

Adopted.

CITY COUNCIL

REGULAR MEETING

September 14, 1928

OFFICIAL PROCEEDINGS

(Published September 18, 1928, in the Minneapolis Star.)

Council Chamber,
Minneapolis, Minnesota,
September 14, 1928—9:30 a.m.

President Ryan in the chair.

Present—Aldermen Ritten, Hawley, Chase, Sweeney, Maurer, Fruen, Brown, Rosander, Peterson, Bastis, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—24. Absent—Aldermen Sheffield, Currie—2.

The minutes of the proceedings of the regular meeting of July 13, 1928, were approved.

The matter of the request of James Robertson, attorney for Henry N. Knott, for cancellation of certain checks made payable to Edward W. Hawley, laid over on August 31, 1928, was again taken up.

Alderman Hawley moved that the matter be laid over until the next regular meeting.

Adopted.

Alderman Peterson moved: Whereas it is reported in the press that Major Charles L. Hall, federal engineer of the Rock Island district, has made an unfavorable report in regard to a nine-foot channel in the upper Mississippi river; and,

Whereas, said report appears to be based upon the supposition that an adequate amount of freight is not available down stream to warrant the expenditure required to carry out the project for a nine-foot channel; and,

Whereas, said report is based upon misinformation as to facts, as the Twin Cities, having a population of over 800,000, being one of the greatest grain centers in the world, having extensive manufacturing industries, and being the center of the agricultural Northwest which contains many cities having commodities for shipment down stream—for example, iron ore, since Minneapolis is nearer to the iron ore centers than Duluth—have resources to build up an enormous river traffic; and,

Whereas, a survey by the City Engineer of Minneapolis proves beyond doubt that Minneapolis alone has sufficient freight to keep 125 barges going during the navigation season, when an adequate barge fleet has been placed in operation and terminals completed; and,

Whereas, although the Inland Waterways Corporation has not been operating more than seven months, yet during this brief experimental period it has made a wonderful showing in freight carrying both ways, up and down stream; and,

Whereas, It is apparent that transportation and waterways cannot be fully established in seven months, especially since the Inland Waterways Corporation has no fund with which to employ traffic experts and freight solicitors; and,

Whereas, the City Council of the City of Minneapolis has appropriated $10,000.00 a year for the purpose of employing experts to aid the Inland Waterways Corporation to build up business for shipment both ways on the Mississippi River;

Now, therefore, it is moved that by the adoption of this motion the City

Council of the City of Minneapolis urge upon General Edgar W. Jadwin, Chief of the Engineers, to recommend an appropriation to Congress with which to complete the nine-foot channel between Minneapolis and St. Louis, notwithstanding the report of Major Charles L. Hall, and that said project be commenced as soon as funds are available.

Adopted.

A strip of land not already laid out as alley, 14 feet in width, which lies easterly of, adjacent to, at right angles from and parallel with a line beginning at a point on the southerly side line of East 33rd street, distant 127 88 feet easterly from the easterly line of 36th avenue south, thence southerly to the northeasterly corner of lot 1, Walton's Rearrangement in block 15, Seven Oaks Acres Addition to Minneapolis, according to the plat of said Addition on file and of record in the office of the Register of Deeds in and for Hennepin County, Minnesota; thence southerly to the southeasterly corner of lot 6, said block 15; thence southerly to a point with the northerly line of East 34th street as opened by the City Council, a distance of 127.7 feet easterly from the easterly line of 36th avenue south and extending from the southerly line of East 33rd street to the northerly line of East 34th street.

To Carrie Wiseth—All that part of the following described tract of land, viz: North 37 48-100 feet of west ½, lot 1, block 15, Seven Oaks Acres, Minneapolis, Minnesota, which is included in the above described tract of land. Net compensation and damages for property taken or injured, $17.13.

Said sums of money being the amounts of compensation and damages awarded for the taking of and injury to private property in the matter of laying out and opening alley between 36th and 37th avenues south from East 33rd street to East 34th street. (Street Opening No. 1240.)

Adopted—Yeas, 23; nays, none, as follows: Yeas — Aldermen Ritten, Hawley, Chase, Sweeney, Maurer, Fruen, Brown, Rosander, Bastis, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—23.

STREET OPENING No. 1241

Alderman Kjorlaug moved that there be and hereby is appropriated and set apart in the City Treasury, from the Street Opening Fund, and that the City Clerk be and hereby is directed to draw warrants for the following named respective sums of money, to be paid from the first funds available for the purpose to the following named respective persons, when they shall have furnished abstracts of title to the land taken, showing their right to such sums of money, as follows, to-wit:

All that part not already laid out as alley of the following described tract of land, viz.: Commencing at the northwesterly corner of lot 5, block 8, Excelsior Addition to Minneapolis, according to the plat of said Addition on file and of record in the office of the Register of Deeds in and for Hennepin County, Minnesota, thence easterly on the northerly line of said lot, 10 feet, thence southwesterly to a point on the westerly line of said lot 5, distant 10 feet southerly from the northwesterly corner of said lot 5; thence northerly

on the westerly line of said lot 5 to place of beginning.

To Louis C. Konkle—All that part of the following described tract of land, viz.. Lot 5, block 8, Excelsior Addition, Hennepin County, Minnesota, which is included in the above described tract of land. Net compensation and damages for property taken or injured, $35.00.

Said sums of money being the amounts of compensation and damages awarded for the taking of and injury to private property in the matter of laying out, widening and opening alley in block 8, Excelsior Addition taking a triangular part of lot 5, in said Addition of City of Minneapolis. (Street Opening No. 1241.)

Adopted—Yeas, 23; nays, none, as follows: Yeas — Aldermen Ritten, Hawley, Chase, Sweeney, Maurer, Fruen, Brown, Rosander, Bastis, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—23.

UNFINISHED BUSINESS

Alderman Johnson renewed notice of the introduction of an ordinance, at the next regular meeting, prohibiting marathon dancing in the City of Minneapolis.

MOTIONS AND RESOLUTIONS

Alderman Chase moved, whereas the Cityof Minneapolis, on account of its great investment in the River Terminal, is vitally interested in all matters pertaining to Mississippi river development, that the City Clerk be directed to communicate with General Jadwin requesting that the City Council be notified of future hearings concerning the proposed nine foot channel and kindred matters.

Adopted.

Aldermen Turner and Swanson moved that Charlie Kauth, Seventh Ward employe, be given one week's leave of absence, with pay, beginning September 17, 1928, to be paid from the Seventh Ward Street Fund.

Adopted.

Alderman Blomberg moved that the Street Commissioner of the Twelfth Ward be and is hereby directed to carry Caryl G. Anderson on the payroll as "special laborer" at the rate of $6.00 per day, beginning September 14, 1928.

Adopted.

Alderman Sweeney moved that the Cost Accountant in the office of the City Comptroller be and he is hereby directed to report to the City Council in writing the names of department heads or employes of departments under the City Council to whom allowances are made for auto maintenance, and the amount thereof; also the names of all department heads or employes under the City Council operating or to whom are allowed motor vehicles owned by the City in the performance of their official duties.

Adopted.

Aldermen Blomberg and Ekberg moved that the City Engineer be directed to place Mr. August Erickson, foreman on the curb and gutter work, on the pay roll from July 10 to 18, 1928, being an amount of $56.00, and to make the check payable to Mrs. August Erickson as Mr. Erickson died on August 8, 1928. On July 9, Mr. Erickson while in the employ of the City suffered a sun stroke and was laid up until July 18, when he returned to work and worked until he died on August 8, 1928, apparently from effects of the sunstroke. The payment for said time is to be made from the Curb and Gutter Fund.

Adopted—Yeas, 23; nays, none, as follows: Yeas — Aldermen Ritten, Hawley. Chase, Sweeney, Maurer, Fruen, Brown, Rosander, Bastis, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—23.

Alderman Ekberg moved that the City Sewer Department and the City Water Department be and are hereby authorized and directed to notify the Commissioners of the various wards two weeks in advance of the time they expect to start work of installing sewer and water mains in streets and alleys in their respective wards, in order that said Commissioners may not unnecessarily make street improvements upon such streets and avenue or alleys.

Adopted.

Alderman Brown moved that during the illness or temporary absence of Alderman Sheffield, Alderman Rendell be and is hereby authorized to act in his place upon all special committees of one Alderman from each ward.

Adopted.

Aldermen Robb and Kjorlaug moved that the alley between 49th street and Lake Harriet boulevard, from Morgan avenue to Knox avenue be ordered graded under the five-year Elwell law, property to pay the

whose cost. Referred to Committee on Good Roads.

Alderman Pearson moved to adjourn.

Adopted. Adjourned.

CHAS. C. SWANSON,
City Clerk.

Official Publication

Of Ordinances and Resolutions passed by the City Council of the City of Minneapolis, Minnesota, at a Regular Meeting thereof held September 14, 1928.

(Published September 19, 1928, in the Minneapolis Star)

AN ORDINANCE

Amending an Ordinance Entitled, "An Ordinance to Regulate the Construction, Alteration, Maintenance, Repair and Removal of Buildings within the City of Minneapolis", approved May 4, 1916, as subsequently amended.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. That Section 70 of the above quoted ordinance, as amended, be and the same is hereby further amended by striking out the word and figure, "four (4)", where the same occur in the first sentence of the first paragraph of said section, and substituting in lieu thereof the following words and figures: three and one-half (3½).

Section 2. That Section 73 of the above quoted ordinance ,as amended, be and the same is hereby further amended by striking out the words and punctuation, "not exceeding .3906 square inches in area of cross-section, rerolled from rail stock, may", where the same occur in the last sentence of sub-division (1) of said section, and substituting in lieu thereof the following words: rerolled from rail stock may.

Section 3. That Section 131 of the above quoted ordiance, as amended, be and the same is hereby further amended as follows:

First. By amending the second and third paragraphs of sub-division (1) of said section, as amended, to read as follows:

Except as hereafter otherwise provided in this section, each such inside standpipe system shall be provided with and connected to sources of water supply as follows, according to the height of the building in which such system is installed: In buildings of from four (4) to seven (7) stories inclusive, direct connection not less than four (4) inches in diameter to city water main or mains, and outside Siamese steamer connection (or connections), except that for buildings not exceeding five (5) stories in height in which one (1) riser only is required such direct connection to water main need be only three (3) inches in diameter; from eight (8) to eleven (11) stories inclusive, direct connection not less than four (4) inches in diameter to city water main or mains, outside Siamese steamer connection (or connections), and a roof gravity tank of a capacity not less than five thousand (5,000) gallons; from twelve (12) to fifteen (15) stories inclusive, direct connection not less than four (4) inches in diameter to city water main or mains, outside Siamese steamer connection (or connections), a roof gravity tank of five thousand (5,000) gallons minimum capacity, and one or more automatic fire pumps, each with a rated capacity of not less than five hundred (500) gallons per minute installed on a by-pass with an arrangement of gate and check valves approved by the Chief Engineer of the Fire Department; from sixteen (16) to twenty (20) stories inclusive, direct connection not less than six (6) inches in diameter to city water main or mains, outside Siamese steamer connection (or connections), a roof gravity tank of five thousand (5,000) gallons minimum capacity, and one or more automatic fire pumps, each with a rated capacity of not less than seven hundred fifty (750) gallons per minute installed on a by-pass with an arrangement of gate and check valves approved by the Chief Engineer of the Fire Department; from twenty-one (21) to twenty-seven (27) stories inclusive, direct connection not less than six (6) inches in diameter to city water main or mains, outside Siamese steamer connection (or connections), a roof gravity tank of five thousand (5,000) gallons minimum capacity where the standpipe or standpipes to be served thereby are of the single riser type, or a roof gravity tank of five thousand (5,000) gallons minimum capacity and an intermediate tank of five thousand (5,000) gallons minimum water capacity where one or more of the standpipes to be served are of the group or assemblage of risers type herein elsewhere provided for, and one or more automatic fire pumps, with an aggregate rated capacity of not less than

one thousand (1,000) gallons per minute installed on a by-pass with an arrangement of gate and check valves approved by the Chief Engineer of the Fire Department; twenty-eight (28) stories and over in height, direct connection not less than six (6) inches in diameter to city water main or mains, outside Siamese steamer connection (or connections), a roof gravity tank of five thousand (5,000) gallons minimum capacity where the standpipe or standpipes to be served thereby are of the single riser type, or a roof gravity tank of five thousand (5,000) gallons minimum capacity and one or more intermediate tanks of five thousand (5,000) gallons minimum water capacity each where one or more of the standpipes to be served are of the group or assemblage of risers type herein elsewhere provided for, and one or more automatic fire pumps with an aggregate rated capacity of not less than one thousand five hundred (1,500) gallons per minute installed on a by-pass with an arrangement of gate and check valves approved by the Chief Engineer of the Fire Department. The number of direct city water main connections, outside Siamese steamer connections and automatic fire pumps required to be installed, under the provisions of this ordinance, shall depend in each instance on the ground area, location and arrangement of the building in which they are to be installed and the arrangement and extent of the standpipe system they are to serve and shall be subject to the approval of the Chief Engineer of the Fire Department, and where the number of standpipe risers served by them renders it necessary, said Chief Engineer shall require that the capacity of roof, intermediate and pressure tanks be sufficiently greater than the minimum capacities herein above specified to ensure adequate water supply for the risers served. No required automatic fire pump shall have a capacity of less than five hundred (500) gallons per minute. Wherever necessary, in the opinion of the Chief Engineer of the Fire Department, one or more compression tanks of not less than one thousand (1,000) gallons capacity each, and an air compressor of sufficient capacity to increase the air pressure at an average of one (1) pound in two (2) minutes in each compression tank, shall be installed in connection with the above required automatic fire pumps.

Provided, however, that in every building now or hereafter erected in the City of Minneapolis of tower construction throughout, exceeding fifteen (15) stories or one hundred ninety-five (195) feet in height and not exceeding seven thousand two hundred fifty (7,250) square feet in ground area covered, and in the tower portion of every building now or hereafter erected in said City and having in connection therewith a tower extending more than fifteen (15) stories or one hundred ninety-five (195) feet above the adjoining portions of such building and having a maximum area of cross-section at any point above such adjoining portions of not to exceed seven thousand two hundred fifty (7,250) square feet, an inside standpipe system shall be installed, for the service of such building of tower construction throughout or of such tower portion only (and no other) of such building having a tower in connection therewith, which standpipe system shall extend throughout the height of such building or tower and shall be constructed, installed and equipped as elsewhere provided in this section of this ordiance, except that the sources of water supply with which each such standpipe system is required hereby to be provided and connected need not exceed the following, according to the height of such building or tower: From sixteen (16) to twenty (20) stories inclusive, direct connection not less than six (6) inches in diameter to city water main or mains, two (2) outside Siamese steamer connections, a roof gravity tank of five thousand (5,000) gallons minimum capacity, and one or more automatic fire pumps, each with a rated capacity of not less than seven hundred fifty (750) gallons per minute installed on a by-pass with an arrangement of gate and check valves approved by the Chief Engineer of the Fire Department; from twenty-one (21) to thirty-five (35) stories inclusive, direct connection not less than six (6) inches in diameter to city water main or mains, two (2) outside Siamese steamer connections, a roof gravity tank of five thousand (5,000) gallons minimum capacity where the standpipe or standpipes to be served thereby are of the single riser type, or a roof gravity tank of five thousand (5,000) gallons minimum capacity and an intermediate tank of five thousand (5,000) gallons minimum water capacity where one or more of the standpipes to be served are of the group or assemblage of risers type herein elsewhere provided for, and one or more

automatic fire pumps with an aggregate rated capacity of not less than one thousand five hundred (1,500) gallons per minute installed on a bypass with an arrangement of gate and check valves approved by the Chief Engineer of the Fire Department; thirty-six (36) stories and over in height, direct connection not less than six (6) inches in diameter to city water main or mains, two (2) or more outside Siamese steamer connections, a roof gravity tank of five thousand (5,000) gallons minimum capacity where the standpipe or standpipes to be served thereby are of the single riser type, or a roof gravity tank of five thousand (5,000) gallons minimum capacity and one or more intermediate tanks of five thousand (5,000) gallons minimum water capacity each where one or more of the standpipes to be served are of the group or assemblage of risers type herein elsewhere provided for, and one or more automatic fire pumps with an aggregate rated capacity of not less than one thousand five hundred (1,500) gallons per minute installed on a bypass with an arrangement of gate and check valves approved by the Chief Engineer of the Fire Department; and where the height of any such standpipe system which exceeds thirty-five (35) stories renders it necessary, in the judgment of the Chief Engineer of the Fire Department, he may require the installation of additional automatic fire pumps. Wherever necessary, in the opinion of the Chief Engineer of the Fire Department, one or more compression tanks of not less than one thousand gallons capacity each, and an air compressor of sufficient capacity to increase the air pressure at an average of one (1) pound in two (2) minutes in each such compression tank, shall be installed in connection with the above required automatic fire pumps.

Second. By adding at the end of sub-division (2) of said section, the following sentence: Each such installation shall be made to conform throughout to such plans as finally approved by the Chief Engineer of the Fire Department.

Third. By amending sub-division (3) of said section to read as follows:

(3) Standpipe Installations to be Tested Before Acceptance:

Before acceptance, all standpipe (fire lines) shall be tested for at least one (1) hour in the presence of a representative of the Fire Department to a hydrostatic pressure of at least three hundred (300) pounds per square inch at the street level, or such additional hydrostatic pressure as may be required to produce a pressure of one-hundred (100) pounds at the highest hose outlet. Wherever changes are made to existing equipment previously approved, the system shall be tested to a hydrostatic pressure sufficient to give one hundred (100) pounds pressure at the highest story hose outlet. No valves, risers, or other material portions of any standpipe (fire-line) equipment shall be covered or permanently concealed until tested and approved, in writing, by the Chief Engineer of the Fire Department, and a copy of such approval placed on file in the Department of Buildings by the owner or his agent. The owner of every building where standpipe equipment is installed shall cause regular inspections to be made, at least monthly, of all valves, hose, tools, and all other auxiliary fire fighting appliances, and see to it that they are in perfect working order and ready for immediate use by the Fire Department. A detailed record of each such inspection shall be kept on the premises for examination by any representative of the Fire Department.

Fourth. By amending the second paragraph of sub-division (5) of said section to read as follows:

A standard source of water supply shall be taken to mean a source of water supply capable of adequately supplying the standpipe system when not less than three (3) two and one-half (2½) inch hose lines on each standpipe in said system are simultaneously in operation at full capacity, provided, however, that in no case shall any one such standard source of water supply be required to have a capacity greater than one thousand five hundred (1,500) gallons per minute. No connections to street water mains required by this section of this ordinance as sources of water supply for standpipe system shall be tapped or connected into for any purpose other than fire protection, and where meters are required on any such connections to street water mains, each such meter shall be of a type approved by the Chief Engineer of the Fire Department for fire service.

Fifth. By amending that certain paragraph of sub-division (6) of said section beginning with the words, "When the Type A Valve is installed," to read as follows:

When the Type A Method is installed, an air pressure of not more than fifteen (15) to twenty (20) pounds in excess of the normal tripping pres-

sure of the valve shall be maintained in the standpipe system, and in no case shall such air pressure be less than one-sixth (1-6th) of the water pressure. Each such system shall be so maintained as not to lose more than ten (10) pounds of such air pressure per week and shall be maintained dry pipe at all times, except when in use or when special permission is given by the Chief Engineer of the Fire Department to fill the system with water for a short period to detect leakage. The air compressor shall have a capacity of not less than fifteen (15) cubic feet per minute, and the air supply for the pump shall be taken, if possible, from a room containing dry air, or it shall pass through a drying chamber containing calcium chloride so as to avoid the introduction of moisture into the system.

Sixth. By striking out the last two (2) paragraphs of said subdivision (6) of said section, said paragraphs beginning, respectively, with the words, "(c) Pressure tank system; similar to," and, "The installation of a pressure tank system."

Seventh. By amending the first paragraph of sub-division (7) of said section to read as follows:

All water tanks installed above the roof of any building shall be constructed and erected in accordance with the provisions of Section 95 of this ordinance. No gravity roof tank, intermediate tank or pressure tank shall at any time contain less water, reserved solely for standpipe fire line purposes, than the number of gallons specified in sub-division (1) of this section as the minimum permitted capacity for such tank.

Eighth. By striking out sub-division (8) of said section.

Ninth. By striking out the sentence, "Each tank section shall be direct connected to the tank section above by means of piping of the same diameter as that of the largest riser and in this connecting line there shall be provided an approved swing check valve, opening upward, in order that water pumped into the Siamese connection may enter the entire equipment of the building, and that each tank will supply only its portion of the system", where the same occurs in the second paragraph of sub-division (10) of said section.

Tenth. By adding, at the end of sub-division (14) of said section, the following paragraph:

At or near the base of each standpipe riser, an outside stem and yoke gate valve shall be installed in such a manner that said riser may be shut off without interfering with the operation of the balance of the standpipe system, each such valve to be normally sealed open.

Eleventh. By amending sub-division (15) of said section to read as follows:

(15) Number of Risers:

Whenever standpipe fire line equipment is required, there shall be provided, in all cases, regardless of area or location, a sufficient number of standpipes so that any portion of the roof or of the floor area of each story, basement or cellar, or of any section of any such story, basement or cellar which is separated by a fire-wall or by fire-walls from adjoining portions thereof, may be covered by the stream from a standpipe hose not exceeding one hundred (100) feet in length, allowing not more than ten (10) feet for the throw of the hose stream where the static pressure at the hose outlet does not exceed fifteen (15) pounds, nor more than twenty (20) feet for such throw where said pressure exceeds fifteen (15) pounds. Each required standpipe in any building shall consist of but one (1) riser, except that where the height of a building exceeds twenty (20) stories, each required standpipe therein may consist of a group or assemblage of two (2) or more risers, depending upon the height of the building, in which group or assemblage riser No. 1 shall extend to the twentieth (20th) story and shall serve that and all lower stories; riser No. 2 shall extend to and serve only an additional set of hose outlets at said twentieth (20th) story and those of the next succeeding seventeen (17) stories, or sixteen (16) stories and roof, or fraction thereof, above same; and so on, an additional riser being provided to similarly serve each successive higher seventeen (17) stories, or sixteen (16) stories and roof, or fraction thereof, and an additional set of hose outlets at the highest story served by the next lower riser, but with no lower hose outlets on any such riser. Each riser of any one such group or assemblage shall be provided with and served by automatic fire pump or pumps and Siamese steamer connections, as elsewhere provided in this section of this ordinance for standpipes, but no two such risers of any one standpipe and only the corresponding risers of separate standpipes shall be served by the same automatic fire pump or pumps or by the same Siamese steamer connections. When there are two or more standpipes in a fire line equip-

ment, each consisting of one riser only, all such risers shall be cross-connected at the bottom by piping of a diameter at least equal to the diameter of the largest riser, but in no case shall the cross-connection be less than five (5) inches in diameter, and where the wet system is used and such standpipes in a single building are supplied by tanks, they shall also be similarly cross-connected at the top. Where the several standpipes in any building each consist of a group or assemblage of risers, the corresponding risers in all of said standpipes which are connected to the same sources of water supply shall be separately and similarly cross-connected. Each building fronting on more than one (1) street shall have at least one (1) standpipe for each street front, and in each case where more than one Siamese connection is required, they shall be properly distributed as the Chief Engineer of the Fire Department may direct, and not grouped. Provided, however, that a building shall not, in this connection, be considered as facing on more than one street when it is on but one corner and has no frontage on any street other than those intersecting at such corner.

Twelfth. By amending sub-division (16) of said section to read as follows:

(16) Size of Risers:

For buildings not exceeding six (6) stories or seventy-five (75) feet in height, standpipe risers shall be not less than four (4) inches in diameter; for buildings exceeding six (6) stories or seventy-five (75) feet but not exceeding twenty (20) stories or two hundred and fifty (250) feet in height, not less than six (6) inches in diameter; and for buildings exceeding twenty (20) stories or two hundred and fifty (250) feet in height, not less than eight (8) inches in diameter. In buildings exceeding twenty (20) stories or two hundred fifty (250) feet in height, whenever any required standpipe consists of a group or assemblage of risers, each riser of such standpipe shall be not less than six (6) inches in diameter.

Thirteenth. By amending sub-division (17) of said section to read as follows:

(17) Risers; Where Located:

All required two and one-half (2½) inch hose outlet valves on required standpipes shall be located within stairway enclosures, whenever practicable so to do, and whenever required standpipes are not located within stairway enclosures they shall, in all cases where practicable, be installed adjacent thereto.

Fourteenth. By amending sub-division (19) of said section by striking out the words, "standpipe fire lines," where the same occur in the first sentence of said sub-division (19), and substituting in lieu thereof the words, all standpipe fire lines required hereby.

Fifteenth. By amending sub-division (22) of said section to read as follows:

(22) Regulation and Reduction of Pressures:

Where the hydraulic pressure at any hose outlet would exceed fifty (50) pounds (stream flowing), a device approved by the Chief Engineer of the Fire Department shall be provided at each such hose outlet valve which will reduce such pressure to fifty (50) pounds, such device to be preferably of the adjustable type.

Sixteenth. By amending sub-division (23) of said section to read as follows:

(23) Fire Pumps:

In every building twelve (12) or more stories in height, one or more automatic electric or steam pumps shall be kept in readiness for immediate use during all hours of every day and every night.

Seventeenth. By amending sub-division (24) of said section to read as follows:

(24) Arrangement, Location and Supply of Fire Pumps:

Wherever an automatic fire pump is required to be installed, as above provided, it shall be connected to the standpipe system and shall have a capacity, in gallons of water per minute at a pressure of fifty (50) pounds per square inch at the roof or highest hose outlet, not less than that provided for in sub-division (1) of this section of this ordinance, and such fire pump shall be installed on a by-pass with an arrangement of gate and check valves approved by the Chief Engineer of the Fire Department and shall be provided with a suction pipe of ample size. In the line from the fire pump to the standpipe risers there shall be placed an approved type check valve in a horizontal position and also an outside stem and yoke gate valve, the latter to be normally sealed open. A pressure guage shall be provided and connected to the discharge line of the pump. Wherever the height of any building and the standpipe layout of the installation and equipment are such as to require a pressure exceeding two hundred and seventy-five

(275) pounds to the square inch in order to obtain at the roof outlet a pressure of fifty (50) pounds per square inch, the owner shall furnish such additional pump capacity and equipment as may be necessary in order to maintain such water pressure of fifty (50) pounds per square inch at such outlet. The piping connecting discharge from any such fire pump to standpipe risers shall be not less in size than the largest riser it serves, and shall enter the standpipe system in the basement or cellar or, if there is no basement or cellar, in the lowest story.

For each steam driven fire pump hereafter installed, as herein required, ample steam pressure shall be at all times provided at the pump to operate same at full capacity under the working conditions to which it will be subjected, and the capacity of the boiler furnishing such steam shall be ample to maintain such required steam pressure while the pump is in operation, and for each electrically driven fire pump so installed, the electric motor installed to drive such pump shall be of ample horsepower to operate such pump at full capacity under the working conditions to which it will be subjected.

Each such fire pump shall be provided with a relief valve of ample size to serve such pump installation, which relief valve shall discharge into an open pipe or with a cone or funnel secured to outlet of valve, in plain sight from the pump, and the waste pipe from such relief valve shall discharge into a sewer connection of proper capacity.

Wherever fire pump or pumps are required to be installed in any building, as above provided, there shall be installed in a well lighted position in the pump room or engine room, adjacent to said fire pump or pumps, in a substantial frame glazed with clear glass, a complete and clearly drawn diagram of the entire standpipe (fire line) equipment in said building, for use of the Fire Department, said diagram to be printed on cloth and not less than nineteen by twenty-four (19x24) inches in size.

Eighteenth. By amending sub-division (25) of said section to read as follows:

(25) Siamese Connections for Fire Department Use:

Each inside standpipe shall be equipped with a Siamese connection, of a type to be approved by the Chief Engineer of the Fire Department, installed outside of the building in an accessible location for use by the Fire Department and provided with hose couplings to conform to the size and pattern adopted by the Fire Department of the City of Minneapolis. Each such Siamese connection placed on the street front of the building shall be located at least eighteen (18) inches and not more than twenty-four (24) inches above the sidewalk level, and shall be set in a horizontal position. The piping connecting the Siamese with the standpipe equipment proper shall connect with base of standpipes and shall be not less than five (5) inches in diameter where there are two or more four (4) inch risers connected thereto, and not less than six (6) inches in diameter for risers six (6) inches or more in diameter. Where there is but one four (4) inch riser, connection from Siamese may be four (4) inches in diameter. In each line between the Siamese connection and the standpipe system, there shall be placed an approved type swing check valve, opening upward, and between the Siamese and such check valve there shall be placed either a one-half (½) inch open drip without valve or cock, extending to a sink or sump, insuring visible flow, or there shall be provided a three-quarter (¾) inch automatic ball drip of an approved type which will close under a pressure of not more than seven (7) pounds per square inch. Wherever the height of any building and the standpipe equipment is such that one Siamese connection on any standpipe is not sufficient to afford adequate service, in the opinion of the Chief Engineer of the Fire Department, the owner shall furnish and install an additional Siamese coupling on such standpipe.

Each outside Siamese steamer connection hereafter installed on any building in the City of Minneapolis shall be provided with metal caps or plugs, of an approved type, to protect the threads of each inlet of such connection, and adjacent to each outside Siamese steamer connection hereafter installed, there shall be provided a metal plate, securely attached to the wall of the building, on which shall be cast or engraved in letters not less than one (1) inch in height the words, "Standpipe Connection," where such Siamese connection serves a standpipe consisting of a single riser, and where the standpipe so served consists of a group or assemblage of risers, the words, "Standpipe Connection, Riser No. ....." (Inserting the number of the particular riser which that Siamese serves), "Serving Floors Nos.

..... to ..... inclusive" (inserting proper floor numbers to show which floors are served by said riser).

Section 4 This ordinance shall take effect and be in force from and after its publication.

Passed September 14, 1928. John Ryan, President of the Council.

Approved September 18, 1928. George E. Leach, Mayor.

Attest: Chas. C. Swanson, City Clerk.

AN ORDINANCE

Amending "An ordinance relating to and regulating the location, size and use of buildings, the height of buildings, the arrangement of buildings on lots, and the density of population in the City of Minneapolis, and for the purpose of promoting the public health, safety, order, convenience, prosperity and general welfare in said City, and for said purpose to divide the City into districts," approved April 7, 1924, as amended.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. The above quoted ordinance, approved April 7, 1924, as amended, two-thirds of the property owners within 100 feet of the real estate hereinbelow described having acquiesced therein by petition therefor, is hereby further amended by inserting immediately after Section 26a of said ordinance as amended the following paragraphs, to-wit:

adopted by the City Council as showing correctly the character, extent and cost of the improvement actually agreed upon and ordered by the City Council, and such plat and survey and estimate are directed to be filed with the City Clerk of said City.

And it is hereby recited and determined that the estimated cost of improving said lands as ordered by the City Council, is and will be the sum of $1,137.72.

And that Oscar Bergerson, Henry Malchow, Edgar L. Noyes, Ralph Brastad, and Robert Wilson, all freeholders and qualified electors of said City, no two of whom reside in the same ward, be and they are hereby appointed Commissioners to view the premises and to assess the said estimated cost of improving said street, for the purposes aforesaid, to-wit: the sum of $1,137.72, upon such lots and parcels of land in the City of Minneapolis as they shall deem especially benefited in proportion to such benefits and not exceeding the actual benefits to any parcel, provided, however, that the portion of said amount corresponding to the benefits to unassessable property shall be paid out of the City's General Fund and that the assessments made and levied for the purpose of making such improvement shall be collected in five equal annual installments.

Passed September 14, 1928. John Ryan, President of the Council.

Approved September 18, 1928. George E. Leach.

Attest: Chas. C. Swanson, City Clerk.

RESOLUTION
(By Alderman Kjorlaug)
STREETS
No. 1247

Laying out, extending and opening an alley in the City of Minneapolis, from north line of Tillie Mattson Addition to 26th avenue northeast, between Buchanan and Lincoln streets.

Resolved by the City Council of the City of Minneapolis:

That an alley in the City of Minneapolis be laid out, extended and opened as follows, viz.: The land to be taken for said opening being all that part not already laid out as alley of a strip of land, 14 feet in width, which lies easterly of, adjacent to ,at right angles from and parallel with a line beginning at the northeasterly corner of lot 10, Tillie Mattson Addition to Minneapolis, according to the plat of said addition on file and of record in the office of the Register of Deeds, in and for Hennepin County, Minnesota ;thence northerly to a point on the southerly side line of 26th avenue northeast distant 124.4 feet easterly from the easterly side line of Buchanan street, as opened by the City Council, and extending from the northerly line of Tillie Mattson Addition to the southerly line of 27th avenue northeast.

And that the City Engineer of said City make and present to City Council a plat and survey of such proposed improvement, showing the character, course and extent of the same, and property necessary to be taken or interfered with thereby, with the names of the owners of each parcel of such property so far as the Engineer can readily ascertain the same, and such statement as may, in the opinion of the Engineer, be proper to explain such plat and survey and the character and extent of the proposed improvement.

Passed September 14, 1928. John Ryan, President of the Council.

Approved September 18, 1928. George E. Leach, Mayor .

Attest: Chas. C. Swanson, City Clerk.

CITY COUNCIL

REGULAR MEETING

September 28, 1928

OFFICIAL PROCEEDINGS

(Published October 2, 1928, in the Minneapolis Star.)

Council Chamber,
Minneapolis, Minnesota
September 28, 1928—9:30 a.m.

President Ryan in the chair.

Present—Aldermen Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Brown, Rosander, Peterson, Bastis, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—24.

Absent—Alderman Ritten—1.

The minutes of the proceedings of the regular meetings of July 27th and August 10, 1928, were approved.

Alderman Giebenhain moved that we all rise and bow our heads in a moment of silent tribute to our departed friend, Alderman George S. Sheffield.

The Council rose in silent tribute to Alderman Sheffield, who died on September 27, 1928.

Alderman Rendell moved that the chairman appoint a committee of three to draft a resolution on the death of Alderman George S. Sheffield.

Adopted.

President Ryan announced the appointment of Aldermen Rendell, Brown and Giebenhain as the special committee to draft the resolution.

Alderman Gisslen moved that in pursuance of the provisions of the City Charter, the City Council of the City of Minneapolis do hereby order and call a special election to be held in the Eighth Ward of the City of Minneapolis, Minnesota, on Tuesday, the 6th day of November, A. D. 1928, from 6 o'clock a.m. to 9 o'clock p.m. on said day, for the purpose of electing an alderman to fill the vacancy in the office of alderman for the Eighth Ward of the City of Minneapolis caused by the death of Alderman George S. Sheffield, and to serve for the unexpired portion of the term of said Alderman George S. Sheffield, deceased, ending the first Monday in July, 1931, such special election to be held at the same time and with the general election to be held in the City of Minneapolis, Minnesota, on said day for the election of State and County officers and other purposes; that the judges of election and clerks of election in each election district in said Eighth Ward at said general State and County election therein on November 6, 1928, shall be the judges of election and clerks of election at said special election; and that the City Clerk be and is hereby directed to forthwith give notice of the time, places and purpose of holding the special election hereby ordered and called.

That under and pursuant to the provisions of the City charter, a primary election is hereby called and shall be held in and for the Eighth Ward of the City of Minneapolis, Minnesota, on Thursday the 25th day of October, 1928, from 6 o'clock a.m. to 9 o'clock p.m. on said day, for the purpose of selecting two candidates to be voted for at the special election to be held in said Eighth Ward, in the City of Minneapolis, on Tuesday, November 6th, 1928, to elect an alderman from said Eighth Ward to fill the vacancy in the office of

alderman from said Eighth Ward of the City of Minneapolis caused by the death of Alderman George S. Sheffield; that the judges of election in each election district in said ward at the last general City election in 1927 shall be the judges of election at such primary election; that the City Clerk be and is hereby directed to give notice of the time, places and purpose of holding said primary election; that the notice of such special election and such primary election be given at the same time and in one and the same notice; that such special and primary elections be held in the several polling places in the several election districts in said Eighth Ward.

Adopted—Yeas, 24; nays, none, as follows: Yeas — Aldermen Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Brown, Rosander, Peterson, Bastis, Turner, Swanson, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, Ekberg, Blomberg, Kjorlaug, Robb, President Ryan—24.

From the Charter Commission of Minneapolis—Communication requesting reconsideration of the action of the City Council on September 14, 1928, providing for the submission of proposed Charter Amendment No. 5 at the General Election to be held on November 6, 1928, and that such proposed amendment be submitted to the voters at a special election to be held on said date, otherwise requesting that the amendment be withdrawn.

Alderman Rendell moved that the motion offered by Alderman Rendell, as amended by motion offered by Alderman Bastis, adopted September 14, 1928, that the Charter Amendment be submitted at the General Election in November, be and is hereby rescinded; also the motion by Alderman Gisslen, adopted at the same meeting, providing for the submission of Charter Amendment No. 5 to the voters at the General Election on November 6, 1928, the publication of said proposed amendment in certain newspapers, and the provision for separate lavender colored ballots for this purpose.

Adopted.

Alderman Rendell moved that the proposed amendment be submitted to the voters at a special election to be held on November 6, 1928.

Alderman Rendell withdrew his motion.

Alderman Kjorlaug moved that the proposed amendment be submitted to the voters at a special election to be held November 6, 1928.

Alderman Bastis moved that the matter be laid on the table.

Lost—Yeas 8; nays, 16, as follows: Yeas—Aldermen Peterson, Bastis, Rendell, Pearson, Gisslen, Benson, Johnson, President Ryan—8. Nays—Aldermen Hawley, Chase, Sweeney, Maurer, Fruen, Currie, Brown, Rosander, Turner, Swanson, Giebenhain, Guider, Ekberg, Blomberg, Kjorlaug, Robb—16.

Alderman Sweeney moved to amend Alderman Kjorlaug's motion to read that the proposed amendment be submitted at the General Election on November 6.

Lost—Yeas, 9; nays, 15, as follows: Yeas—Aldermen Sweeney, Maurer, Rosander, Peterson, Bastis, Pearson, Giebenhain, Benson, President Ryan—9. Nays—Aldermen Hawley, Chase, Fruen, Currie, Brown, Turner, Swanson, Rendell, Gisslen, Guider, Johnson, Ekberg, Blomberg, Kjorlaug, Robb—15.

Alderman Benson moved, as a substitute for Alderman Kjorlaug's motion, that whereas the City Council feels that the amendment should not be presented at a special election on November 6, or at the General Election on November 6; therefore, the Council concurs in the request of the Charter Commission and that the same be considered withdrawn and be not submitted to the voters on November 6.

The question being, "Shall Alderman Benson's motion be substituted for the motion of Alderman Kjorlaug?" it was—

Adopted—Yeas, 14; nays, 10, as follows: Yeas—Aldermen Chase, Sweeney, Maurer, Rosander, Peterson, Bastis Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, President Ryan—14. Nays—Aldermen Hawley, Fruen, Currie, Brown, Turner, Swanson, Ekberg, Blomberg, Kjorlaug, Robb—10.

Alderman Rendell moved that all matters pertaining to the proposed amendment, including Alderman Benson's motion, be referred to the Special Committee on Elections.

Alderman Rendell withdrew his motion.

The question being on the adoption of the motion of Alderman Benson, it was—

Adopted—Yeas, 13; nays, 11, as follows: Yeas—Aldermen Sweeney, Maurer, Rosander, Peterson, Bastis, Rendell, Pearson, Gisslen, Giebenhain, Guider, Benson, Johnson, President Ryan—13. Nays—Aldermen Hawley, Chase, Fruen, Currie,
